

THE PRODUCT PUBLICATION OF THE U.S. ARCHITECTURAL MARKET

Architectural PRODUCTS

JUNE 2012

glazed over

Market of Choice: Renovation and retrofit are now staples in the hospitality market. Identifying products that provide a great—even historic—look in a cost-effective manner is crucial. For instance, thin brick can deliver the full effect of the traditional building material, but at a fraction of the cost. **[Page 47]**

Achieving LEED

Luxury and efficiency meet in San Diego's Hotel Indigo, the city's sole-certified resort.

Project Deconstruction

Adaptive reuse at its finest, as an office complex is converted into a synagogue campus in Chicago.

Doors & Hardware

PULL IT

Thin hardware pull by **Reveal Designs** pays tribute to the minimalist movement, featuring a modern look in stainless steel. The Kirkland pull, designed by Jim Cutler, Cutler Anderson Architects, White Plains, N.Y., comes in 4-in. and 6-in. lengths. Visit www.reveal-designs.com or Circle 434

INTERIOR OPENING

Interior hardwood doors by **Urban Front** are highly sound insulated, with acoustic seals on all four sides, featuring concealed or pivot hinges. Available in sizes up to 9.8-ft.-high by almost 4-ft. wide, the doors come in eight contemporary styles and three hardwoods. With a wide choice of hardware including clear or sandblasted glass and brushed stainless steel accents, each door is hand made to order. Pictured: Rust in Walnut. SLOW CLOSE

Norton Door Controls' 5600 Series low energy operator is ideal for public restrooms, restaurants, executive offices and healthcare facilities not seeking fire-rated hardware. The operator combines the function of a door closer with the control of an operator to meet ADA requirements cost-effectively and efficiently. Ideal for retrofit applications, installation is simple. The 5600 Series is non-handed and features pull-side mounting and quiet operation as well as electronically controlled backcheck, sweep and latch, an onboard power supply for accessories, and activation options for wall switches, presence detectors and radio frequency devices.
