

THE PRODUCT PUBLICATION OF THE U.S. ARCHITECTURAL MARKET

Architectural PRODUCTS

October 2016

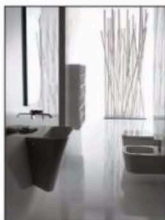

The word 'dynamic' may be an understatement when it comes to describing façade developments as the roles of architectural geometry and material science expand in ever-creative ways...

Beyond being an enclosure, façades, by the way of fenestration, for example, can heighten the form and visual purpose of a building of any size, be it a single-level structure or a skyscraper.

+ THE DOUBLE LIFE OF FAÇADES +

The wall-mounted Meg11 is simply an attractive form and a universally accessible bathroom design solution.

GALASSIA
Meg11

NOT SO UTILITARIAN

Leave it to the Italians to design an elegant take on a utility sink; Galassia's wall-mounted Meg11 combines high design and practicality for a perfect place to soak your delicates; this contemporary washbasin designed by Antonio Pascale takes an unexpected twist in its materials, form and accessibility. **Circle 390**

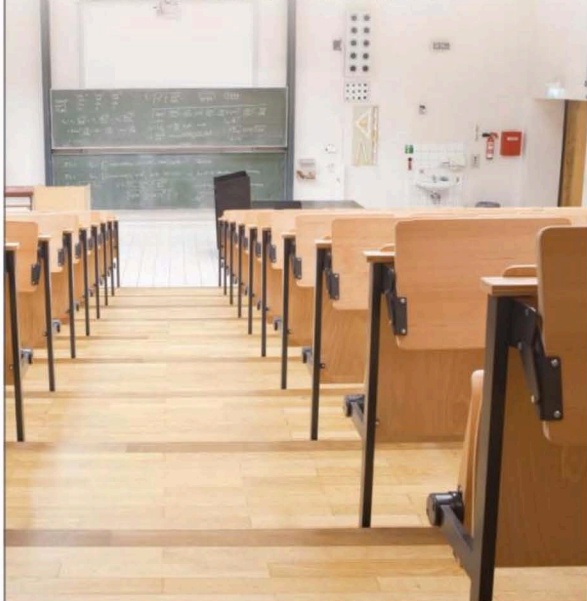

QUAKER WINDOWS & DOORS

LETTING THE LIGHT IN

With its narrow sightlines and large glass size options, Quaker's new energy-efficient M600 AAMA-rated AW-PG70 Aluminum Architectural certified window series is a great option for daylighting. A 3.25-in. frame depth and 1-in. insulating glass is offered with a multi-point locking system for added safety and security. Impact rated, the high performance system delivers continuous weather-stripping for reducing air and water infiltration. **Circle 389**

FROM DORM ROOM TO CLASSROOM

TURN TO MAXXON FOR BEST IN CLASS FLOOR SOLUTIONS

For renovation or new construction on college campuses, Maxxon offers a complete line of underlayments, sound control mats and moisture mitigation products:
