“Layering patterns and textures is what makes a space dynamic. Mix at least three patterns and vary the scale and design.”

Cheryl Kees Clendenon  
designer

**DESIGNER**

Cheryl Kees Clendenon owns In Detail Interiors in Pensacola, Florida. See more of her work at [indetailinteriors.com](http://indetailinteriors.com), as well as on her design blog, [kitchendetailsanddesign.com](http://kitchendetailsanddesign.com).

## THE SOLUTIONS

**1.** Giving the bath three distinct zones—a wet room with a tub and shower, a dedicated vanity, and a dressing room (see floor plan below)—makes much better use of the room's long layout.

**2.** Adding a space-saving corner tub to the shower area enhances luxury, while placing the toilet in its own compartment ensures privacy in a shared bath.

**3.** A light, bright color scheme visually opens up the narrow bath, provides continuity throughout the room's three zones, and lets the materials' prominent textures and patterns stand out.

**4.** A large, symmetrical vanity provides ample storage space. Opting for one sink, rather than two, ensures counter space for two people.

**AFTER**

## VALUE BUDGET

### FIXTURES

Produits Neptune Wind 3660 tub	\$2,025
Hansgrohe PuraVida 240 Single-Hole Faucet in chrome	\$682
American Standard Cadet Pro 215FC.104 toilet	\$247

### DRESSING ROOM

Vanity, upholstered chair, ottoman, shelving, lighting, mirror, window treatment fabric	\$2,307
---	---------

### TOTAL

prices are estimates, excluding installation

**\$14,993**

A glass enclosure defines the wet room and allows natural light from the tub window to illuminate the rest of the bath.

Large-format floor tile provides a clean, cohesive look underfoot and contrasts nicely with the shower's mosaic tile.

**STUNNING VESSEL SINKS**

Above-counter sinks boost a bath's style. This slideshow offers tips for choosing one. [BHG.com/PrettySinks](http://BHG.com/PrettySinks)

Achieve a dramatic look at the vanity by sticking to just one sink and one mirror, and selecting wow-worthy versions of each.

Positioning a soaking tub under a window with great views capitalizes on relaxation-inducing scenery and natural light.
