# LIVING GREEN

Eco-friendly and fashion-forward merge in this elegantly appointed master bath.

writer ANN WILSON  
photographer TRIA GIOVAN  
field editor ANNA MOLVIK

**OPPOSITE:** Setting 2×2-foot tiles diamond-style beneath complementary bullnose tiles creates a whimsical wainscoting. **THIS PHOTO:** A midsize tub leaves enough room between it and the vanity to allow easy travel from the bedroom to the walk-in closet and back.

Tucking the freestanding tub in a quiet corner sets the scene for long, relaxing soaks. The vanity's java finish grounds the otherwise airy bath without overwhelming it.

# SPA TREATMENT

A dreary bath becomes a light-filled oasis with space-saving fixtures and a restful palette.

**OPPOSITE TOP:** The showerheads' luxe, brushed-gold finish picks up the soft gold veining in the marble shower walls. **OPPOSITE, BOTTOM LEFT:** Lightweight lined Roman shades filter sunlight and provide privacy. **OPPOSITE, BOTTOM RIGHT:** A penny-round tile border defines an eye-catching visual rug on the bathroom floor. Subfloor heating warms up the stone. **THIS PHOTO:** Marble walls and multiple showerheads make even a quick shower a spa-like experience. Three stacked niches in the shower create order and interest.
