Atlas Hardware's New Conga Collection Brings Modern Vibe to Island Style

Inspired by tropical nights and the captivating rhythm of Latin music, the new Conga Collection combines tiki-style chic with the clean lines of mid-century minimalism. The end result is a hip, contemporary look that is decidedly unique and the perfect solution for those who want to add a cool hint of the Caribbean to their décor. Conga adds a tropical feel that is understated yet versatile and perfectly at home in South Beach, the Cape or in an upscale penthouse in the heart of the city.

As one of the Atlas Hardware's newest lines, the Conga Collection is notable for its drum-inspired knobs and a smooth, ergonomic design with a subtle groove for added interest. Options include two knob sizes and four pulls ranging from 3 3/4 to 7 1/2. Available in a selection of five beautiful finishes, including Polished Chrome, Polished Nickel, Brushed Nickel, Matte Black and new Warm Brass.

WarmlyYours' Underlayment Guide

In the world of in-floor heating, manufacturers are breaking ground with new products and installation techniques all the time. It's an exciting time to be in the industry, but it can also be difficult to keep up with all the new developments. To help you stay up-to-date on available types of underlayment and when to use them, WarmlyYours has compiled this guide.

Crossville's Sophisticated, Modern Take on the Wood-look Tile Trend

Crossville, Inc. has introduced Nest porcelain tile collection, a domestically produced, wood-look line. Inspired by the authentic graining of Olive and American Oak species. Nest offers a beautiful, durable alternative to real wood for both floors and walls. Nest comes in seven soothing, neutral colors, with each hue interpreted in both Olive and American Oak graining. The range of colors offered in two unique grains invites mixing and matching for the creation of customer patterns on floors, as well as walls. Field tile size options are 6"x36", 8" x 36", and 3"x15". Additionally, parquet-inspired mosaics, mesh-mounted on 12" x 12" sheets, are suited for shower pan use or can be combined with the planks sizes for stunning floor patterns. Bullnose and cove base trim allow for beautifully completed installation.
