Working with respected designers, Du Verre creates beautiful hardware collections. Pomegranate, inspired by nature, is from Heinz Pfleger; Series 3, elegant and ergonomic, is from Scot Laughton; and Tribal, inspired by African weaving sticks, is by Clodagh.

From left: Pomegranate 1/4-inch round knob and 3-inch pull in satin brass (\$13 and \$23); Series 3 4 1/4-inch pull in satin nickel (\$23); and Tribal 4-inch pull in antique brass (\$22). Du Verre; 888/388-3773; duverre.com

Products We Love

If these items were displayed in a store window, people couldn't help stopping to stare. And they'd be saying, "I must have that."

British designer Jocelyn Warner sees wallpaper as a glamorous, modern medium for expressing individuality. Looking at her patterns, we wholeheartedly concur. Jocelyn Warner Lace wallpaper in white (call for pricing). Available in the United States at Stark Wallcovering; 212/829-5396; starkwallcovering.com

Designer Sara Baldwin's combinations of marble and glass tile blend Eurasian materials with contemporary design. If we were Silk Road traders, we'd bring this tile home with us. Raj in Calacatta Tia and Thassos from the Silk Road collection (\$126.50 per square foot). New Ravenna Mosaics; 757/442-3379; newravenna.com

The Atlas Homewares catalog is full of treasures. We couldn't resist this pair—both are dazzlingly elegant. Pull with crystal pavé and crystal knob in matte chrome (\$49 and \$37). Atlas Homewares; 800/799-6755; atlashomewares.com

4

wood. We chose gold; you might like silver or ivory. Soap dish, pump dispenser, and tissue cover from the Miraflores collection (\$100, \$145, and \$180, respectively). Labrazel Home; 860/232-6300; labrazelhome.com

6. Here's an intriguing idea—matching the basin of your bathroom sink to the granite on your countertops. This vessel sink from Diamond Spas drains around the edges of the floating granite plate, allowing a smooth stretch of uninterrupted stone to complement the sink's recycled-copper frame. All of the company's products are made from recycled sheet metal—making them practical as well as pretty. Evanesce copper vessel lavatory (\$1,630). Diamond Spas; 800/951-7727; diamondspas.com

7. In Jason International's new hydrotherapy tub, oxygen-packed micro bubbles not only clean and moisturize, leaving your skin soft and silky, they also release heat energy into the water and negatively charged ions into

the air, keeping you warm without adding hot water. The combination improves serotonin levels, and thus your sense of well-being—all without the supercharged noise of a jetted tub. We want this in our bathroom. Now. MicroSilk hydrotherapy tub KT553 from the Designer collection (from \$4,200). Jason Hydrotherapy; 800/255-5766; jasoninternational.com

Picture one or more of these elegant products in your bathroom. Alone or in concert, they're transformative.
