1 HASTE GARDEN

hastegardenusa.com

Made in Poland from robinia (black locust wood), Estella folding chairs and tables are Forest Stewardship Council (FSC) certified, denoting that their timber was sourced from responsibly managed forests. Powdercoated steel with a silvery iron look frames and supports the pieces. The chair is available with or without curved armrests.

2 EXPORMIM

expormim.com

Twins is the work of Spanish multidisciplinary studio MUT Design. The range includes this newly launched loveseat, which shows off Omega Outdoor or Batyline Senso upholstery stretched across a frame of high-resistance aluminum tubing. Its decorative cushions can be customized in a variety of fabrics.

3 NORCROSS FURNITURE CO.

norcross.io

Nature's Reserve features a frame made of rust-resistant aluminum wrapped in a recyclable polyethylene woven material that mimics rattan. Polyester piped fabric covers the cushions and outdoor foam base, which is designed with an open-cell structure that allows water to pass through.

4 VICTORIA + ALBERT

vandabaths.com

The manufacturer's outdoor bath options—including the sea-inspired Pescadero freestanding tub (shown)—are crafted from the company's proprietary UV-resistant ENGLISHCAST Volcanic Limestone composite. Showcasing a hand-finished glossy surface, the tubs are resistant to thermal shock, which means they won't crack or bend due to temperature changes.
