# Popular Products for the Bathroom

Add style and functionality to your next bathroom project with the following products.

Compiled by Kristen Eichenmuller

► Victoria & Albert's beautiful Cheshire classic tub is the ultimate statement in quality and style. Crafted from 100 percent Englishcast, a blend of volcanic limestone and high performance resins, it features very generous proportions and traditional ball-and-claw feet options.

▼ The Schluter-Kerdi-Board system serves as a substrate, building panel and bonded waterproofing solution. Kerdi-Board provides the means to more quickly and easily create absolutely flat substrates for tile, with precise corners that are immediately ready for tile. It can be installed on virtually any wall surface or used to construct free-standing structures for tile coverings. Available in seven thicknesses from 3/16-inch to 2-inches.
