## WHAT'S NEW

**Hanwha L&C Surfaces.** Eleven new colors in the HanStone quartz line add blends of subtle monotones and colorful marbling to the company's natural quartz countertops. The colors include pewter, a gray with faint gold flecks; seaside, a sandy beige speckled with brown; Alexandria, a light brown with black specks; Grigio, an emerald green with white marbling; and Ajanta (shown). 888.426.9421. **Dacor.** The 36-inch Distinctive gas cooktop sports a scratch-resistant finish and includes five burners: a versatile 18,000-BTU burner, which simmers, sears, or sautés at ultra-high or ultra-low temperatures; two 12,000-BTU sealed gas burners; and two smaller 9,000-BTU sealed gas burners. The maker says the burners reignite automatically if the flame is accidentally extinguished, and Smart Flame technology keeps flames from reaching the porcelain-lacquered cast-iron grates. 800.793.0093. **Haier.** Made for compact, integrated kitchen areas, this under-counter dual-drawer refrigerator can be installed under a hanging surface using side brackets rather than by drilling up into the counter. Each refrigerator has a 5½-cubic-foot capacity, and each drawer holds items up to 1 foot tall. The unit is available in white, black, and stainless steel. 877.337.3639. **Brizo.** A hidden pull-down wand within the Solna kitchen faucet provides convenience without jeopardizing its sleek, streamlined look. Concealed inside the spout, the wand holds securely with the firm's MagneDock technology. The faucet also includes the company's Diamond valve and two spray settings, and it comes in polished chrome, Brilliance stainless, and Brilliance brushed bronze. 877.345.2749. **Ukinox.** With slightly curved corners, Micro series 18-gauge stainless steel under-mount sinks are easier to clean and therefore more hygienic, says the manufacturer. A satin finish gives the 10-inch-deep sinks a modern look, and an undercoat material insulates and absorbs noise. Single- and double-bowl models are available in a variety of sizes. The sinks include basket strainers, mounting hardware, and a countertop template for easy installation. 954.776.0444. [www.ukinoxusa.com](http://www.ukinoxusa.com). Circle 194.
