## WHAT'S NEW

**Mediterranea.** The Exotica series brings a taste of exotic rainforest hardwoods to glazed porcelain tiles. The 6-inch-by-24-inch plank-style tiles are created using hand-scraped and aged-worn surface texture and true color variations to create the authentic look of wood. The series comes in oak, chestnut, cherry, walnut, and espresso and is suitable for high-traffic commercial and upscale residential applications. 305.718.5091. [www.mediterranea-usa.com](http://www.mediterranea-usa.com). Circle 213.

**Du Verre.** Offset, a collection of cabinet hardware created by award-winning interior designer Erin Adams, features knobs and pulls with bold geometric patterns and multidimensional layers that add depth and texture. Products, made of eco-friendly recycled aluminum, are available in five sizes and four finishes: antique brass, polished chrome, oil-rubbed bronze, and matte black. 416.593.0182. [www.duverre.com](http://www.duverre.com). Circle 215.

**Woodgrain Millwork.** Finished Elegance white interior molding crafted for durability and protection against scratching, denting, and moisture, is made with Eastman Cerfis technology. This process allows for superior appearance, performance, and consistency, says the company, and the product requires no additional painting. 800.452.3801. [www.woodgrain.com](http://www.woodgrain.com). Circle 216.

**Fanimation.** The Marea one-bladed ceiling fan was designed to be aesthetically pleasing while providing an energy- and cost-efficient way to move fresh air around the house. It has an airflow of 3,151 cubic feet per minute and an airflow efficiency of 678 cubic feet per minute per watt, using 47 watts at high speed. The fan comes in an oil-rubbed bronze finish with an amber frosted acrylic blade and a satin nickel finish with a white frosted acrylic blade. UL listed, the Marea comes standard with a wall-mount control that can be fitted over a switch plate. 888.567.2055. [www.fanimation.com](http://www.fanimation.com). Circle 214.

**Kelly-Moore.** The Renewal Palette, a collection of 30 paint color schemes organized by focus colors into seven color families, helps pros easily update a living environment without completely overhauling it. The colors can be combined or matched with existing interiors to create a variety of different ambiances, the firm says. 800.874.4436 [www.kellymoore.com](http://www.kellymoore.com). Circle 217.

## WHAT'S NEW

• **NanaWall.** The SL70 thermally broken aluminum-framed folding glass wall system is now offered with triple low-E insulated glazing for a U-value of 0.30 and an SHGC of 0.24. The Energy Star-rated units are available as a floor-mounted system in more than 50 stacking configurations. 800.873.5673. [www.nanawall.com](http://www.nanawall.com). Circle 176.

**Genie.** The IntelliG 1200 and IntelliG 1000 garage door openers have ¾ HPC Power Plus DC motors, belt or chain drives, and 200-watt lights; the IntelliG 1200 also has adjustable speed settings of up to 9 inches per second. The GenieSense Monitoring and Diagnostic technology constantly monitors door operation for changes, and an encryption system, Intellicode 2, is included along with auto-seek technology using both 315- and 390-MHz frequencies that minimize interference. 330.821.5360. [www.geniecompany.com](http://www.geniecompany.com). Circle 175.

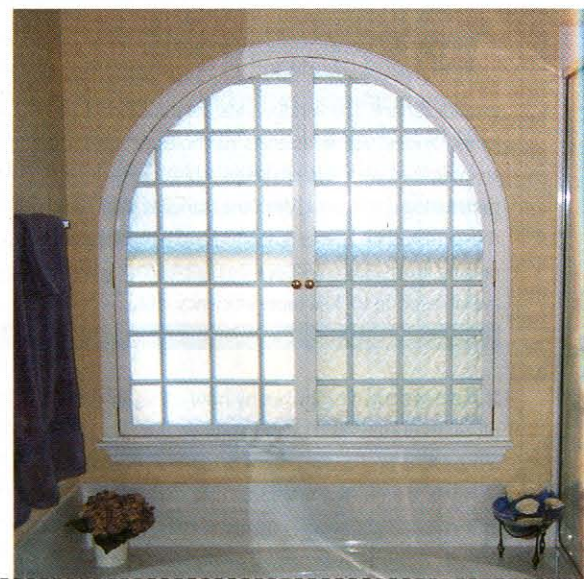

**Ashley Norton.** The solid bronze Urban Suite Grip entry set boasts a clean, contemporary design, with sharp right angles and a smooth texture. The handles, which come in mortise or tubular configurations, feature concealed screws and are available with a choice of nine interior lever and two knob designs. Four finishes are available. 800.393.1097. [www.ashleynorton.com](http://www.ashleynorton.com). Circle 177.

**Jeld-Wen.** Douglas fir reclaimed from fencing, barns, houses, and factories can now be specified for the company's Custom Wood line of windows and doors. Options include weathered, planed, and skip-planed finishes for doors and planed finishes for windows, and the products can be customized to fit an array of architectural styles. Exterior cladding in a range of colors is available. 800.535.3936. [www.jeld-wen.com](http://www.jeld-wen.com). Circle 178.

**Hy-Lite.** The lightweight acrylic Coronado block shutters can be mounted inside or outside existing window jambs in 20 minutes and sized to fit almost any window. The company says the shutters require little maintenance, replace window treatments, and will not warp, chip, flake, discolor, or mold. The cellular PVC composite material offers stronger insulation values than wood, says the firm, and the corrosion-resistant hinges make them well suited to wet environments. The shutters are offered in four frame types and two decorative privacy patterns—translucent and frosted. 888.256.2599. [www.hy-lite.com](http://www.hy-lite.com). Circle 179.
