WHAT'S NEW

DuPont. The Corian solid surface line now includes eight new metallic colors—olivite, bronzite, azurite, silverite, graylite, copperite, sorrel, and aqualite—that combine bold hues with flecks of gold or silver metals to create depth and simulate movement. The seamless surfacing is nonporous and stain-resistant, the manufacturer says. 877.229.3935. www.corian.com. Circle 176.

Lenova. Featuring a disappearing, no-seam design, the PermaClean drain system boasts a streamlined, modern look while preventing debris and water buildup. The removable splash guards are dishwasher safe, and the strainer baskets seal to both the drain fitting and the garbage disposal. The sink, which is made with 16-gauge 304 stainless steel with a brushed finish, features a full undercoat and sound pads to reduce noise and vibration. 877.733.1098. www.lenovasinks.com. Circle 177.

Vent-a-Hood. The PRH18M M series hood features an exposed stainless steel canopy, providing a professional, modern look at a contractor's price, the maker says. The unit's baffle filter/blower system offers 600- to 1,000-cfm options. The canopy measures 18 inches high by 24 inches deep and comes in seven widths from 30 to 66 inches. It is shown here with a matching wall-mount duct cover, which is available separately for 8-, 9-, and 10-foot ceilings. 800.331.2492. www.ventahood.com. Circle 178.

Fulgor Milano. A shallow box design for 300 series gas and electric cooktops allows builders to install other appliances and cabinets underneath, the maker says. Gas and electric models feature an Italian Wing design, which positions controls along the side to maximize cooking space; electric models also can be specified with slide-and-touch controls and a Peacock Tail design that visually represents power levels for greater cooking precision. 800.926.2032. www.fulgor-milano.us. Circle 179.

Atlas Homewares. A rustic look and classic shapes give the Legacy Distressed line of cabinet knobs and pulls an Old World charm. The hardware is crafted in solid brass and comes in champagne, pewter, antique bronze, and oil-rubbed bronze finishes. Round and oval knobs are available, along with 3-, 5-, and 7-inch pulls. 800.799.6755. www.atlasmomewares.com. Circle 180.
