Heather Dubbeldam, Tim Wickens
& Jean-Maxime Labrecque

Plus: Cool new stuff for the bathroom

Including IDC's *Dimensions*

1—DOWN WITH THE DRAIN

For its new washbasins in the Kartell by Laufen collection, water drains out via a linear channel at the back, concealed by the cantilevering design of the basin ledge. The hidden drain outlet with a hidden overflow makes it possible to stop the water in the basin using a stopper assembly without worrying about the water overflowing. laufen.com

2—IN THE BLACK

Icera, the California-based manufacturer of high-efficiency toilets, introduces a line of striking high-gloss black toilets. Available on most of its premium models by the end of the year. icerausa.com

3—UNDERSTATED

Barcelona-based Cosmic presents a new washbasin collection called Fancy. It includes three ranges: corner and mini basins, available with an integrated cabinet; wall-mounted basins, with a semi-dry area; and a countertop model. icosmic.com

4—LIFE'S A BEACH

Mimo by Laufen – inspired by Miami's blend of Art Deco, rock 'n' roll and Cuban spice – encompasses modestly sized sinks, toilets, vanities and a bathtub. Available in high-contrast black and white, or pink and white. laufen.com

5—A STANDUP GUY

From Dornbracht comes an elegant freestanding tub filler in a wide range of finishes, including polished chrome, black and white matte, gold and champagne. dornbracht.com
