VRF heat pumps

Enhancements to the Y-series outdoor VRF heat pumps provide cooling or heating to 50 zones (to 30 tons) and use the company's Inverter technology to provide the precise amount of cooling or heating to all zones. By distributing capacity from one zone to another, the series consumes only as much energy as each zone needs. The series is available in 208/230-V three-phase or 460-V three-phase units and has an outdoor temperature range of -4 F to 60 F when heating and 23 F to 115 F when cooling.

Water-saving toilet

Cadence One toilet has a 1.28-gpf model and an ultra-high-efficiency 1.0-gpf model. Available in white, bisque, and black with a wide variety of metal finish options, the unit uses the company's Hyperion flushing technology, said to be 30% to 50% more efficient than most toilets. The toilet uses a gravity-only flush system and is EPA WaterSense-compliant. Along with a quiet flush mechanism, the unit has a skirted trapway for easy cleaning.

Glue-free tile adhesive

TileTabs glue-free adhesive solution for modular carpet tiles connect tiles in a seamless layer that sits above existing flooring. Adhering to tiles rather than flooring, the tabs' grip strips provide a low-tack layer that stabilizes installation and is said to prevent creep in high-traffic areas. The product is ADA-compliant.

Glass tabletops

Made from 100% recyclable glass, the company's line of glass tabletops are strong and heat resistant. With applications in indoor and outdoor areas and commercial workspaces, the units are cast in a single piece at a minimum of 1 1/2-inches thick. A textured finish hides fingerprints and smudges and is stain-resistant.
