DEQUE - Single-lever basin mixer
Available from autumn 2011

The fitting's minimalist shape as the source of the gentle presentation of water. Following the natural movement of water through the architecture takes you on a journey through the series' different applications. Precise, geometric shapes create a monolithic landscape of chrome and matt black. Water becomes a stimulating element in this technoid-like design, and the water's surface becomes part of the architecture.

Toulouse

The Toulouse is inspired by French double ended bateau baths first seen in the 1860's. The Toulouse is at home in either a traditional or contemporary setting. Toulouse is made using ENGLISHCAST®, a finely ground volcanic limestone mixed with resin, cast in one seamless piece that won't crack or flex, then finished by hand to provide a glossy white solid surface that is highly durable and easy to clean. The Toulouse bath is 71.5" long, 31.5" wide and 28.25" deep. Retail \$5,500.00

Available at www.vandabaths.com

Barcelona Collection

Victoria + Albert announces the unveiling of their much anticipated Barcelona Collection. Just like the multi-faceted cultural city, the new tub and basin models are a clever mix of contemporary design and a timeless style rich in history. The Collection was inspired by the city's distinctive urban landscape, world famous for its elegant curves and natural forms created by prominent architects such as Gaudi. The contemporary, pebble-shaped Barcelona bath features a rimless, double-ended design that is big enough for two, measuring 70-1/4" long. Retail \$6,800.00
