1-BATHING WITH THE BOUROULLECS

Flowing chrome faucets and smooth, white mineral cast shelves – with soft, deliberate lines – characterize the Axor collection created by the fabulous Bouroullec brothers, Ronan & Erwan. Truly customizable, Axor Bouroullec comprises 40 products, including faucets, washbasins, a bathtub, shower components, and accessories. hansgrohe.ca

2-CURVES AHEAD

Victoria + Albert's newest premium tub is Cabrits, inspired by the peninsula of the same name on the Caribbean island of Dominica. With an elegantly sinuous shape, Cabrits is constructed of Englishcast, a naturally white material rich in volcanic limestone, warm to the touch, highly durable and easy to clean. vandabaths.com
