Kitchen Products

Second Life

Molded from 100 percent recycled glass, ThinkGlass countertops are as durable as stone, according to the manufacturer. The thickness, edge treatment, texture, and color can all be made to order. Constructed to withstand heat, the countertops resist stains, scratches, and mildew. ThinkGlass, 877.410.4527. www.thinkglass.com.

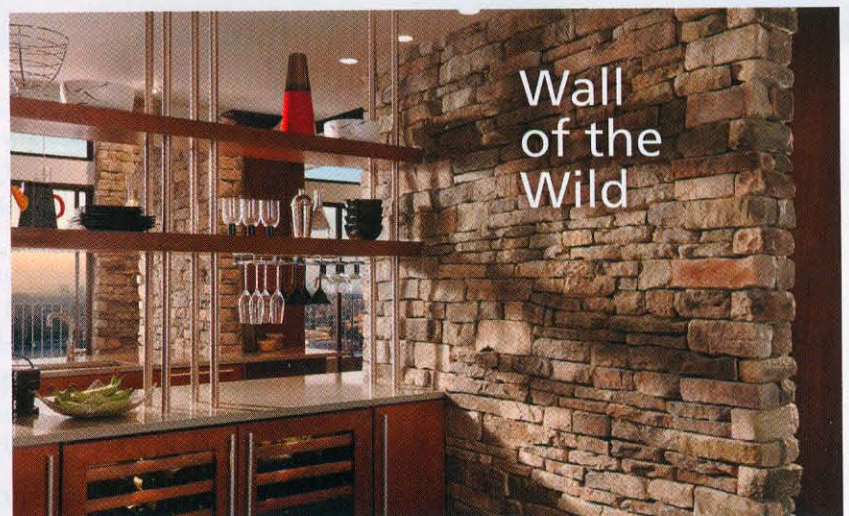

Cold Steel

The DCS 36-inch side-by-side, Energy Star-rated refrigerator sports a tri-sensor control thermostat that regulates temperature and humidity between the fresh food and freezer drawers. Fisher & Paykel, 888.936.7872. www.dcsappliances.com.

Searing, grilling, and warming can be done at once with the dual heat zone capability of the CombiSet barbecue grill—and they can be done indoors. A cast-iron grate sits over lava rocks, which evenly distribute the heat to food, says the company. The indoor electric grill comes in 12- and 15-inch widths. Miele, 800.843.7231. www.mieleusa.com.

Sear Madness

Wall of the Wild

Cast from real rocks, the Ridgestone collection of lightweight stone veneer brings the outdoors into the house. Available in five color blends, the rippled edges of the stacked-stone veneer are made to suggest water-worn rock. Ply Gem Stone, 877.804.1670. www.plygemstone.com.

Bath Products

Column Class

Rift-cut oak and crystal countertops detail the architecture of the INFRA line of bath furniture, part of the Solid Look collection. Italian designer hardware and auto-closing aluminum drawers in a walnut vanity add smooth functionality to its form. Firma. 905.851.5552. www.firmabathfurniture.com.

Gray Matters

The Graphite finish enhances industrial-style bath fixtures with its gunmetal tone, a bluish-gray tint that suits traditional and contemporary designs. The finish is durable and tarnish-proof, says the company. California Faucets. 800.822.8855. www.calfaucets.com.

Glamm, a multifunctional shower panel, boasts an oversized shower head, a hand shower, and adjustable vertical hydro-massage jets. The panel—in white, white oak, and teak finishes—uses a thermostatic mixer to control temperatures. Novellini. 877.273.8816. www.novellini.com.

Vintage Vessel

Inspired by early 20th-century tubs, the Sirena free-standing soaking tub adds ergonomic design and heat-retaining science to its classic style. The oval tub is 72 inches long and 24 inches tall. Americh. 800.453.1463. www.americh.com.
