“I like to bring in vintage pieces and painted

**Opposite:** An antique area rug, a vintage tufted bench, and a wrought-iron garden bench updated with new cushions introduce an array of diverse design periods to the master bedroom.

**Left:** Marble surfaces—18×18-inch floor tiles and the countertop capping the dresserlike vanity—sound a classic and calming note in the master bath. An overdyed vintage rug, black-framed beach-day photos, and white-lacquer mirrors establish collected character. **Below:** Hillary admired this tub for years and couldn't wait to have one installed in her new bath. The chair was a lucky find; its fabric color and vintage frame provide intriguing contrast to the tub's sleek lines.

wood furnishings. I have flea market finds I will never let go of!”
