Just Add Water

A fusion of modern art and ergonomics, Victoria + Albert's Cabrits tub is where rest and relaxation live. The elegantly curvaceous shape contours to the body, creating a serene sanctuary for soaking. To up the comfort factor even more, check out the brand's Luxury Backrest. Built with an internal stainless-steel structure for high stability, it's finished with a water-resistant, soft-touch surface. Couple these items and we'd bet that you never leave the tub.
