Textural Stone Spa

S M L

← Rainshower SmartControl by Grohe

Set against a backdrop of dark, textural tile, this sleek chrome-finished shower unit gleams like a diamond. The central control panel features stereo-like temperature and water-pressure adjustment knobs, plus a shelf to keep shampoo and soap at arm's reach. \$1890, AT TAPSBATH CENTRE, 1020 LAWRENCE AVE W TAPSBATH.COM

↑ Marmo by Aquabrax

Create a powder room that celebrates natural beauty by embracing raw materials. In this design by Antonio Gardoni and Federico Castelli, white Carrara and black Marquina marble pedestals – no two blocks alike – serve as the base for a polished chrome gooseneck faucet. The handcrafted-in-Italy design is also available with copper and brass finishes. FROM \$795, AT CANAROMA, 7979 WESTON RD, VAUGHAN CANAROMA.CA

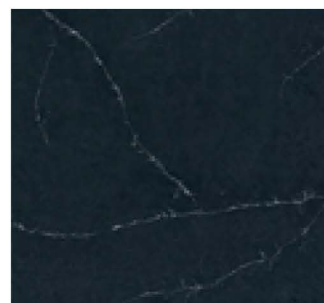

→ Charcoal Soapstone by Silestone

Opt for this richly veined blue-grey quartz to bring moody character to counters or walls. The surface is treated with N-Boost technology, which works at a molecular level to improve colour intensity and water repellency. CALL FOR PRICING, AT COSENTINO SURFACES, 665 CALEDONIA RD COSENTINO.COM

↑ Towels by Mette Ditmer

For those who can't help but karaoke in the shower, here are two cool cotton towels with rock 'n roll edge. One riffs on the subway tile designs of old-school public washrooms, while another features a raised-relief, modern cross pattern. FROM \$40 EA, AT DRAKE GENERAL STORE, 1151 QUEEN ST W (ALSO: 176 YONGE ST, 2607 YONGE ST) DRAKEGENERALSTORE.CA

→ Napoli by Victoria + Albert

Slipping into this stylish standalone is the next best thing to a soak in the hot mineral springs common in exotic mountain destinations. Perhaps that's because the teardrop-shaped tub is made of Quarrycast, an ultra-durable blend of resin and volcanic limestone. The composite's gorgeous glossy white sheen masks its rocky origins. \$5510, AT ROMANBATH CENTRE, 883 CALEDONIA RD ROMANBATHCENTRE.COM
