A COUNTER REVOLUTION.

Versatile, Ingenious Integrated Counter-Sinks.

We've seen MTI Baths continually reinvent itself - always reaching for ways to allow designers to customize when it comes to bath design. And their newest integrated Counter-Sink concept lets even the most seasoned designers step off the regular path for design and think differently. Joining MTI's design-savvy Boutique Collection, the new integrated Counter-Sink gracefully connects one fixture to another in a minimal seamless look. And, very importantly, MTI Counter-Sinks are compatible with most manufacturers' vanities.

The length, width, deck height and bowl placement of these sinks can be customized to any specification. Additionally, custom colors and designs are available for projects, even furthering the level of complete customization. Like all MTI Bath products they are made right here in the USA and MTI can ship in 15 business days.

QUALITY CRAFTSMANSHIP.

Luxury Bath Products Made With Pride in the USA.

As the curator of fine bath products – from tubs to counter-sinks – MTI Baths can attribute its success to its unmatched degree of quality and craftsmanship. Each product is built to order and handcrafted by artisans here in the USA. There are no robots in MTI's production facilities – only real people creating exceptional products, one careful step at a time. And even with nearly limitless customization options, most MTI products ship within seven business days, the fastest in the industry. Shown here is the award-winning Juliet, characterized by an asymmetrical design. Part of their Boutique Collection, the Juliet is crafted of the manufacturer's proprietary Engineered Solid Stone, a mixture of ground minerals and resin. For information on MTI's extensive selection of design and customization options call 800-783-8827 or visit mtibaths.com.
