Victoria + Albert New Trivento Bateau Bath

Known as a bateau bath or “boat bath” these timeless beauties have not lost their popularity or appeal. Recently, Victoria + Albert unveiled a modern reinvention of this classic bateau bath, named Trivento.

Featuring a fine rim and a deep, double-ended bathing well, Trivento is equally at home in city apartments or suburban bathrooms. Combining the clean lines of a modern aesthetic with the graceful curves of a classic silhouette, the Trivento provides support for a luxurious bathing experience. Measuring a comfortable 22-7/8” high by 27-7/8” wide and 65” long, the Trivento works with Victoria + Albert’s Kit 40 Intelli-waste bath drain. It is crafted from the brand’s signature ENGLISHCAST® composition - a naturally white material rich in Volcanic Limestone™ that is beautifully warm to the touch and hand-finished by craftsmen to create a glossy finish that is highly durable and easy to clean.

Eldon Named DPHA 2017 Fixture of the Year

The Decorative Plumbing & Hardware Association honored Victoria + Albert’s Eldon Tub as the 2017 Fixture of the Year. Created by leading British architecture and interior design studio, Conran + Partners, this back-to-wall bath has the curvaceous lines of a freestanding tub, yet sits flush against the wall for greater space saving and ease of installation. It is particularly ideal for hospitality settings due to its practicality and easy cleaning. The tub is wrapped with a crisp edge that forms a natural shelf against the wall to hide pipework and provide a platform where plumbing could be deck-mounted if desired. The tub has a molded upstand to allow for retrofit installation without disturbing existing flooring. The Eldon can be installed with or without an overflow and works with Victoria + Albert’s Kit 40 Intelli-waste or Kit 60 “exofill” bath drain.
