AU NATURALE

Victoria + Albert takes the outdoor shower garden to the next logical level with the introduction of the Pescadero, a tub designed for soaking under the stars or in the sun. Made from ground volcanic limestone-based English-cast, the tub features an eye-pleasing asymmetrical design. Available for \$5,300 at Hill's Showcase of Fine Plumbing, Naples. For more in lavish outdoor living, see *Design Trends* on p. 202.
