## design trends

### Apparent Transparency >>

A clear Lucite base cradles the white Crypton fabric cushion of Century's Brussels bench. Brushed nickel screw covers add eye appeal and a touch of shimmer. Baer's Furniture, Naples and Fort Myers.

### << Bathroom Makeover

Rev up the bath or powder room with The Furniture Guild's new China red vanity featuring circular wood forms over mirrored doors. The company's Stephen collection offers a choice of stone tops and 14 cabinet finishes, including robin's egg blue, and built-in accessories for hair dryers and curling irons and automatic LED lighting. Starting at \$3,994. Available at Bob Hill Plumbing Showcase, Naples.

### Seeing Clearly >>

See-through acrylic and Lucite lend an ethereal quality to furniture. Case in point: The Tuscany slate-gray leather cushions of Mitchell Gold + Bob Williams-designed Kazan chairs appear to float within the clear acrylic side panels. Padded armrests and polished stainless steel caps enhance the mixed message. \$2,875 at Robb & Stucky, Naples and Fort Myers. 🌴

### CORRECTION

Jenny Provost's name was misspelled in the *At Home* magazine article regarding her business, K2 Design. We regret the error.
