## THE ULTIMATE LUXURY

▼ Kohler's Underscore bath is now equipped with a new heated surface called Bask. It provides a soothing experience by warming bathers' necks and backs with three adjustable temperature settings that complement the temperature of the water. Bask is available in all nine sizes of the Underscore bath, including the Underscore Cube (pictured). [kohler.com](http://kohler.com)

## AHEAD OF THE CURVE

▼ The new Cabrits 55 Basin by Victoria + Albert is a curvaceous vessel made from finely ground limestone mixed with resin and cast in a single, seamless form. It can be installed as a stone-alone sink or side by side on a vanity. [vandabaths.com](http://vandabaths.com)

## NEW STYLES IN TILE

▲ Ann Sacks revealed several high-impact tile collections in 2012. One, Haveli by Neisha Crosland, is a line of glazed terra cotta tiles inspired by Native American weavings. Designs include Thunderfield (top) and Boomerang (center). Another, the Daniel Ogassian collection, features geometric forms in deep relief and finished in rich, artisanal glazes such as the Flora Hex (bottom). [annsacks.com](http://annsacks.com)
