MEC2's livecookintable is modular, foldable, lightweight mobile food-display and live-cooking furniture. The German-engineered product features interchangeable devices with multiple storage and transportation options. **MEC2, Wiesbaden, Germany.** livecookintable.com, info@mec2.de

The Cáscara is **MTI Baths'** newest freestanding bathtub. Part of the company's Boutique Collection, the tub features a seamless, elliptical silhouette and oblique ledge. It comes as a soaker or air bath with therapeutic options including 20 air jets, a heated air blower and a waterproof remote control. The tub is constructed of MTI Baths' proprietary Engineered Solid Stone and is available in white or biscuit with matte or high-gloss finishes.

**MTI Baths, Sugar Hill, Georgia.**

The Avon mattress from **Naturalmat** features a combination of hand-nestled springs, organic lambs wool and organic latex with two rows of firm springs around the sides. The pocket springs — encased with natural fibers — can be fine-tuned to provide soft, medium or firm support. Horse hair needled onto hessian backing protects the pocket springs from wear while giving extra spring and flex to the mattress. The mattress is finished with organic lambs wool and encased in organic cotton. **Naturalmat, Exeter, United Kingdom.**

**Homer Laughlin China Co.'s** Retro Collection is a dinnerware line featuring 12 designs in three groups, all based on historically popular patterns from years past that are updated with new manufacturing processes. The collection is dishwasher-safe and can transfer from oven to table. The dinnerware is produced on the company's ivory body with either clear or Arctic White glazes and has a heavy-gauge, high-Alphalain coating for durability. **Homer Laughlin China Co., Newell, West Virginia.** hlcdinnerware.com, hlc@hlchina.com

The Fedora LED suspended and direct-downward ceiling spotlights from **Axo Light** feature suspension light shapes inspired by Russian nesting dolls. Each light produces diffused direct and indirect white light. The collection includes five ceiling-suspension designs and one direct-downward spotlight. The upper lamp housing and diffuser is made from aluminum in metallic bronze or rose gold while the lower portion is faceted transparent glass. The spotlight is made of transparent glass. **Axo Light USA, Danbury Connecticut.** [axolightusa.com](http://axolightusa.com), [info@axolightusa.com](mailto:info@axolightusa.com)

**Bartech's** eDrawer minibar series now comes with a customizable doorplate that allows customers to tailor the product to a hotel's specific design needs. With a cold cube drawer and a dry section, the eDrawer offers flexibility for food and drinks without occupying a large amount of space. The product also directly monitors and posts guest charges to a property's PMS and features automatic expiration-date management. **Bartech, New York, New York.** [bartech.com](http://bartech.com), [bruno@bartech.com](mailto:bruno@bartech.com)

**Hoshizaki America's** Modular Crescent Cuber KMD-460MAH Air-cooled Unit is equipped with a stainless-steel evaporator and produces crescent-shaped cubes. The unit can produce up to 457 pounds (207 kilograms) of ice per 24 hours and has a stainless-steel exterior. The ice machine is compatible with many ice storage bins. **Hoshizaki America, Peachtree City, Georgia.** [hoshizakiamerica.com](http://hoshizakiamerica.com), [marketing@hoshizaki.com](mailto:marketing@hoshizaki.com)

The Ionian tub from **Victoria + Albert** is a freestanding tub with a compact footprint that makes it appropriate for smaller spaces. The oval silhouette and clean lines give the freestanding tub a modern look while generous interior dimensions and gentle angles allow for soaking. The tub is cast in one seamless piece that resists cracking and flexing, and is easy to clean. **Victoria + Albert, Shropshire, United Kingdom.** [vandabaths.com](http://vandabaths.com)
