Winter Wonders

Products that make nesting a joy **BY** Diane Tierney

↑ **Classy and Quiet**

Gerber's Hinsdale suite plumbing features modern traditional styling. With its blend of contemporary design elements, the products within the suite bring a more updated and relevant look for people who prefer traditional aspects to their décor. Hinsdale styling is offered in several products: a two-piece high efficiency toilet operating at 1.28 gallons per flush/4.8 litres, a 25-inch pedestal sink and a 21-inch petite pedestal sink. The WaterSense-certified Hinsdale toilet is the first Gerber product to feature the brand's QuietClean flushing system. QuietClean combines dual-siphon jet technology that pushes water down through the top of the bowl instead of up from the bottom – offering a powerful swirl effect for superior cleaning. gerberonline.com or **866.538.5536**

↑ **Sensational Sinks**

Icera and St. Thomas Creations introduce three new lavatory sinks to their line of quality bathroom furnishings. Each product is created to be part of a complete suite, coordinated with the entire bathroom in mind. The Canto is a medium-sized sink with a sculptural shape that is elegant and classic. The medium-sized Karo sink features a rectangular profile softened by a gently sloped inner basin. The Vista sink is available in both medium and petite sizes and features sleek vertical walls, subtly rounded corners and a smooth rectangular basin. ICERAUSA.com or call **855-44-ICERA**

↑ **Log Home Love**

True North Log Homes has developed the most technologically advanced log home system. For more than 30 years the company has taken great pride in their innovative spirit which is reflected in their 25 Canadian and U.S. patents.
