Samsung's energy efficient new **FTQ307 Induction Range** gives you the control of gas cooking, without the radiated heat. Cookware is heated directly, meaning faster cooking while the cook top itself stays cool. The 3-fan true convection oven has a huge 5.9-cubic-foot capacity and a self-cleaning option that utilizes the power of steam.

The **Tekura** by BainUltra is designed around the textures, forms and colours of nature. Its MyBodyrest kit enhances the bathing experience to create deep relaxation with a headrest, submerged armrests and a central leg support. Available in two finishes: red cedar wood and Acrystal. www.bainultra.com

Immerse yourself in rich 3D video and sound with Denon's **AVR-3311CI A/V** receiver. It supports a wide range of HD Audio formats, including Dolby TrueHD and Audyssey DSX, to provide a truly rich 3D ambience. The receiver also supports a variety of on-line content such as Pandora, Rhapsody and Flickr. www.denon.ca

The revolutionary **AGA PRO+** has an energy-saving split oven capacity. Smaller dishes can be cooked in the 2.4-cubic-foot cavity, while 4.9-cubic-feet is available for larger cooking occasions. www.aga-ranges.com
