Hudson Valley Lighting's **Montauk sconce** casts a warm glow when used in its single, double or three-arm version. Its clean lines make it ideal for illuminating a transitional space. The soft cotton crystal that encircles the light brings a touch of understated sparkle. Available in three finishes: Polished Nickel, Old Bronze (*shown*) or Satin Nickel.

BainUltra's freestanding **Essencia Oval bathtub** offers the utmost in ergonomics and therapeutic care, providing an extremely relaxing bathing experience. A dual row of air jets, a foot rest, and armrests provide absolute comfort, and a high-quality hydro-thermo massage. The Essencia also features an inverted V backrest and an integrated headrest ensures a perfect massage of the neck and spine while the raised seat maximizes the massage effect for the legs.

The new **R10 series** from Rubinet gives spouts, handles, showerheads and accessories crisp clean curvatures, and feature a textured insert for a unique sophisticated touch. Available in over 20 finishes, the R10 series can also be created in custom split finishes for the ultimate in originality. A variety of installation options are possible, including wall mounted, deck, floor, ceiling or handheld.

With its collection of elegantly crafted **fog-free mirrors**, ThermaSol delivers great convenience and practicality. Suitable for placement in the shower, by the vanity, or anywhere within the bathroom, the company guarantees that the mirrors will never fog up – even in a completely non-ventilated bathroom. Constructed of 1/4-inch-thick tempered safety glass with a one-inch bevel, the mirrors are available in four distinctive designs. www.thermasol.com

Samsung's new designer **Four-Door French Door Refrigerator** offers a total food storage capacity of 25.5 cubic feet, fits into most standard fridge spaces and comes uniquely equipped with a counter-height middle drawer that is separate from the central fridge. The drawer can be divided into four adjustable compartments and set to one of four different temperatures depending on what is being stored in it. The Energy Star qualified fridge has LED lighting to provide more light while consuming less energy.

Produced by Quebec-based company Thinkglass, this **Ocean-Inspired Illuminated Glass Countertop** brings a real sparkle to the kitchen. Each countertop begins with a handmade process, so every one is unique. Texture, edge treatment, thickness and shape are all customizable – and there's even an option to add LED lights within the glass, resulting in a shimmering water look. Made from 100 per cent recyclable glass, it is cast in a single piece – with no cracks or weakness – and its non-porous surface means there are no crevices to harbour harmful bacteria, mould or mildew.

The 30-inch **Duel Fuel Range** from De'Longhi is newly-available in Canada. With a stainless steel cooking top, the range has four gas burners, porcelainized cast-iron grates, and electric ignition. The self-cleaning electric convection oven allows you to broil with the door closed, and has a warming drawer with humidity control.

The **Next Generation Europa - Verona**, from Zephyr, raises the bar for range hoods, both in style and performance. With a patented DCBL Suppression System, it produces greater air movement while virtually eliminating noise – and is incredibly energy efficient. Dimmable LED bulbs are cool to the touch, and evenly distribute light onto the cooking surface below. www.zephyronline.com
