Presenter of HD Expo, a hospitality design event

## TOP MARKS

The International Interior Design Association (IIDA), in partnership with *Hospitality Design* (HD) magazine, announced the winners of the 21st annual IIDA/HD Product Design Competition honoring the most innovative products on the show floor. Seventeen products in eight categories, including a best of competition winner, were chosen by a panel of judges: Kelie Mayfield, Mayfield and Ragni Studio; Patricia Rotondo, Antunovich Associates; and Chris Evans, Rottet Studio, all IIDA members. The winners are:

### Applied Finishes and Materials

#### 1 WALLCOVERINGS AND TREATMENTS **THE 2017 ERIC ENGSTROM BEST OF COMPETITION**

MDC's Zintra Acoustic Solutions, designed in collaboration with Baresque, resemble decorative architecture with new texture and geometric configurations that absorb internal and external sound influences. The polyester panels come in a range of colors, lines, and shapes.  
MDCWALL.COM

### Flooring

#### 2 CARPETING/CARPET SYSTEMS AND RUGS **Shaw Hospitality** explores natural environments on the micro and macro level in its Off the Grid collection. From grand landscapes to intricate details in moss and spiderwebs, abstract patterns create scale and drama for a more intimate sense of discovery. SHAWCONTRACT.COM

#### 3 HARD SURFACE **Stone Source's** Tratto series of through body, glazed porcelain tile has a hand-drawn appearance and a matte finish. Reminiscent of architectural drawings with linear yet imperfect lines, designs are stenciled onto the surface then coated in material that becomes commercial-grade glass upon firing. STONESOURCE.COM

#### 4 RESILIENT Inspired by both gradient and striated textile aesthetics, **Durkan's** Lineate collection features a linear texture in cool and warm neutrals or on-trend hues that ebb and flow across the plank, giving the illusion of depth on its flat surface. MOHAWKGROUP.COM

## Casegoods and Freestanding Furniture

### 5

#### INDIVIDUAL FURNISHING ITEMS

Conran + Partners' Eldon back-to-wall freestanding tub for **Victoria + Albert** allows for easy installation, hides pipework, and is wrapped in a crisp edge that forms a natural shelf against the wall. [VANDABATHS.COM](http://VANDABATHS.COM)

5

### 6

#### GROUPS, SERIES, SYSTEMS, OR COLLECTIONS

**Sachi's** outdoor Kitchen Module has an aluminum structure and doors, and is capable of hosting between two and 12 modules, each nearly 20 inches wide. The kitchen supports a charcoal grill, gas hobs, a sink, a black zimbabwe granite worktop, and more. [SACHI.PT](http://SACHI.PT)

6

7

## Accessories or Specialties

### 7

#### ARTWORK, SIGNAGE, OR ACCENT PIECES

**Modern Flames'** FusionFire Steam Fireplace uses a natural rising steam curtain and colored LED lighting to create a 3D flame that is virtually identical to real fire. Bridging the gap between gas and electric fireplaces, an internal computer allows users to control flame height and lighting intensity. [MODERNFLAMES.COM](http://MODERNFLAMES.COM)

8

### 8

#### HARDWARE OR DECORATIVE METAL/PLASTICS

Each Haiku fan from **Big Ass Solutions'** Artisan collection features commissioned hand-drawn or painted artwork from artists across the U.S. The sculpted, aerodynamic design uses airplane-inspired airfoils that produce more air while saving energy. An optional LED light is also available. [BIGASSFANS.COM](http://BIGASSFANS.COM); [HAIKUHOME.COM](http://HAIKUHOME.COM)

### 9

#### STORAGE SYSTEMS

Designed by Portland, Oregon firm **OMFGCO** in collaboration with Randolph Designs, **Bryan Ashley's** Guest Room Wall Unit was custom made for the Laylow hotel in Waikiki. Modular elements suspended by steel supports that float above the floor can be arranged into several configurations, while teak woodwork complements the custom brass drawer handles.
