Lamitech, the largest manufacturer of high-pressure decorative laminates in Latin America, unveils the new Saw-Cut collection of woodgrains, Greenguard certified designs which include three patterns depicting rough, rugged wood for warm, natural, and elegant designs. www.lamitech.com

Pyrolave is the world's largest manufacturer of enameled lava stone, pulled from the heart of volcanic craters in Auvergne, France. Known for its beauty, durability, and superior architectural properties, this material can be used for multiple surfaces, from countertops to spa surroundings (as seen here at the Ark spa at the Radisson Blu, Liverpool) and is offered in a range of glossy and matte colors. www.pyrolave.fr

One of a number of new collections from **Maya Romanoff**, Kyoto Weaves is a lighter weight woven hemp product that comes in nine calming colors. This product combines the natural aesthetic of hemp with a clean, modern swirl pattern. www.mayaromanoff.com
