SHAPE UP

Bathroom fixtures and furnishings have slimmed down. And, in the process, they've begun experimenting with new profiles. Most start with architectural and industrial lines, but there are a few ovals and organic curves as well as artistic options such as hand-painted or art glass wash basins. While faucets and showerheads usually shine in chrome finishes or send an urban vibe in brushed nickel, the rest of the bath elements are testing both smooth and textured surfaces and new materials such as bonded wood. More and more, the guest bath is becoming a central design destination.

/ 1 / Moen

www.moen.com

Stainless steel is cut into geometric shapes and bent to form the bath accessories in the Viq collection. Exposed mounting screws underscore the industrial look. Available in brushed nickel or chrome.

/ 2 / Laufen

www.us.laufen.com

With its ultra-slim contour, Living Square wash basins appear to hover on the wall. Created by Phoenix Design, the series includes ceramic toilets, bidets, bathtubs and shower trays as well as furniture.

/ 3 / Victoria + Albert

www.vandabaths.com

The pebble-shaped Barcelona bath features a rimless, double-ended design that's big enough for two. Crafted of Englishcast (a composite material with finely ground volcanic limestone), it is cast in one seamless piece and has a glossy white solid surface.

/ 4 / Duravit

www.duravit.us.com

Designer Matteo Thun's Onto collection pairs bonded, anti-warp, zero-emission plywood with ceramic to create 16 different furniture solutions for the guest bathroom. The line includes consoles, cabinets, drawer units, vanities, bathtubs and illuminated mirrors.

/ 5 / Project Stone by Belstone

www.projectstone.com

Swarovski crystals accent the polished finish of the Belstone Brass Crystal faucet. The line features WaterSense aerators and lead-free airways.

/ 6 / Strini Art Glass

www.striniartglass.com

Adventures in Paradise sinks and sconces repurpose recycled, retired pieces of blown glassware. After being layered into a flat sheet and slowly heated to 1500 degrees, these fused panels are slumped over a form and under another firing at a lower temperature to create unique sculptural shapes.

/ 7 / MTI

www.mtiwhirlpools.com

Adrian features contoured backrests. Available as a soaking tub or with an air-bath system.

/ 8 / Bain Ultra

www.bainultra.com

Freestanding and ergonomic, the Essencia Oval 7236 incorporates an inverted-V backrest and integrated headrest. Each tub also has a dual row of air jets, a footrest and armrests.

/ 9 / Danze

www.danze.com

Available in chrome or nickel finishes, the Reef collection emphasizes an architectural, simple square motif. This Euro-styled collection includes a single-handle faucet, two-handle center set, two-handle widespread, roman tub and tub/shower faucets.

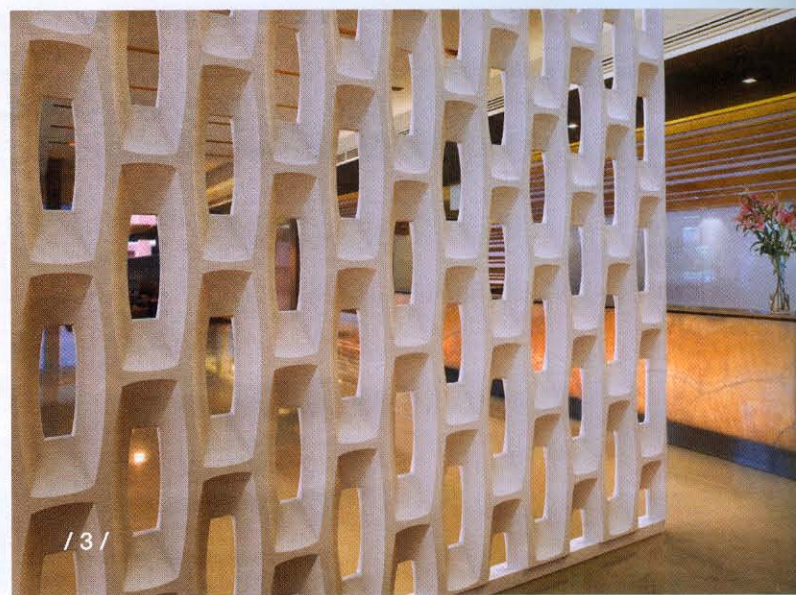

/ 10 / Hastings Tile Bath

www.hastingstilebath.com

Bamboo Collection is sustainable and includes bath furniture, sinks and vanities. The wall-hung storage cabinet (shown) measures 15.7-by-18.1 in. and stands 14.9 in. high. Basin available in mattstone and bamboo.

SPECIAL EFFECTS

Surfacing manufacturers have become masters of illusion. They're turning out porcelain that looks like wood and glass that simulates the richness of marble. Eco-friendly materials get a new spin with bamboo formed into wall panels and recycled leathers that go from board rooms to lounges. Metal is being shaped into fluid forms and angular, 3D patterns. Even suspension systems are changing to adapt to the need for ripples and curves. So go ahead and make some waves.

/ 1 / Textural Design

www.texturaldesigns.com

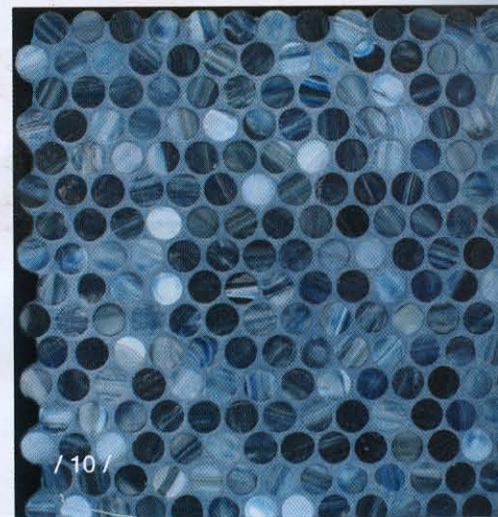

Sculptured interlocking wall panels are made from gypsum. The line's eight designs are grouped into three themes: repeating patterns (shown is Infinity), flowing lines and abstractions. Sizes include 16 by 16 in. and 32 by 32 in.

/ 8 / Chicago Metallic
www.chicagometallic.com
 The Curvgrid two-directional grid suspension system creates wave-patterned ceilings and vaults. This product can be used with or without in-fill panels.

/ 9 / Moz Designs
www.mozdesigns.com
 Pre-engineered ETA metal products contain 85 percent recycled material. The series includes column covers (shown), room dividers, wall panels and tabletops in a choice of hand-etched patterns and Classic or Blendz variegated colors.

/ 10 / Stone & Pewter Accents
www.stonepewteraccents.com
 Hand-poured, marbled Penny Rounds are made from recycled opaque glass. Paper-faced for ease of installation, these mosaic tiles are available in 13 colors and both pearl and silk finishes.

/ 11 / Pyrolave
www.pyrolave.com
 Blocks of stone extracted with handheld tools from volcanic craters in France, Volvic lava stone is cut into slabs, imbued with richly hued enamels and fired at 1832 degrees F. The range of glazed lava stone includes 16 glossy and 16 matte colors.

/ 12 / Envel Design
www.enveldesign.com
 Custom-marbled ENVELEX integrates unlimited color blends, combinations and veining details. Panels come in varying thicknesses and dimensions, starting at 4 by 8 ft. Standard, low-iron and tempered glass-laminate versions are suitable for countertop and high-traffic areas.
