## SOAKING IT UP

GET THE HEALTH BENEFITS OF A RELAXING MASSAGE AT HOME WITH THIS SLEEK NEW TUB.

Goodbye, ugly massaging jet tubs. The new versions, like this BainUltra beauty, are stylish and hardworking. High-tech jets deliver a bath-time massage that replicates the effects of an acupressure treatment, while optional add-ons like aromatherapy and chromatherapy (where different colours are used to calming or energizing effect), give your washroom a spa-like vibe. *Evanesence oval bathtub, from \$6,850, at Taps Bath Centre.*

## Hands Off

A BETTER TOUCH-FREE FAUCET MAKES AVOIDING GERMS EASY.

Oft-touched surfaces are hotbeds of germ activity, but this Scandi-inspired faucet, which comes in a superchic matte black and was designed by fashion star Jason Wu, makes it easy to avoid picking up unwanted visitors. Proximity-sensing technology allows the faucet to detect your presence, so it doesn't waste battery power or water. And it can operate by single touch, too. *Single-handle lavatory faucet, \$810, through Brizo.*

## GREEN CLEAN

## Brush Off

Don't keep your toothbrush in a cup where it can pick up bacteria. Store it in this cool egg-shaped device, which zaps bristles with a six-minute course of UV light strong enough to kill 99.9 per cent of H1N1, salmonella and E. coli. *Zapi UV toothbrush sanitizer, approx. \$44, through Violife.*

Next time you're cleaning the bathroom, switch out toxic chemicals for more natural ingredients. In these offerings from Method, lactic acid helps dissolve soap scum and citric acid is a toilet-cleaning powerhouse. *Antibacterial toilet bowl cleaner, approx. \$5, daily shower spray, approx. \$4, at Target Canada.*
