“Getting to the Point” — Dramatically curved quartz slab top with a 6-inch custom Alder wooden apron comes to a point, giving this Southwest bath a personality of its own while showcasing the twin copper sinks and bronze fixtures. The same shape is echoed in the sculptural open shelving. Rustic textures and neutral colors underscore the earthiness of this powder room. Frosted-glass tiles and shimmering specialty finishes add depth, richness and a soothing sense of calm. The artful mix of wood and stone brings warmth to the space. Simple yet dramatic lighting is achieved by the creative use of LED ropes concealed under the counter and ceiling soffit. Brilliant hanging pendants put guests in the best light possible.

PRODUCTS: Cabinetry/Vanity: Custom Alder apron; Countertops: Morisca Quartz; Faucets/Fittings: Brizo; Flooring: Giallo Antico Travertine; Lighting: Pinnacle; Sinks: Stone Forest; Tile: Cello; Toilet: Kohler.

Before & After Bath

“Warm Outlook” — Warm but modern, and an ultimate space to relax - this remodeled bathroom is built exclusively with natural materials: slate, pebbles, walnut, teak and stacked natural limestone. Limestone flooring, tub front and chocolate brown large-scale tile decking create uniformity and add to the overall

“Mosaic Moment” — The myriad patterns and materials in this bathroom create visual excitement. The focal point is the wall, covered with multi-colored mosaic tiles, and the stepped tile pattern on the shower wall continues the dynamic effect. Photo by *Tom Redner*.

calmness of the space. A rug of pebbles creates a Zen-like path leading to the master bath. A luxurious shower was created using six body jets, one stationary shower head, one large rain head, one hand-held shower and a state-of-the-art steam unit. A large bench serves as the perfect spot to sit, relax and linger. Dark-brown porcelain tiles create the cozy, warm feel that was much desired by the client. An ele-

gant tub is set gracefully against a large picture window which opens to a beautiful outdoors.
