out of the woods

Going out on a limb couldn't be easier

1. Bolivian Rosewood engineered hand-scraped FSC-certified flooring with 35-year warranty by **BR-111**. **circle 646**
2. Jirachai Tangkijngamwong's Antique flooring in white oak by **Deesawat Industries**. **circle 647**
3. Heritage Timber Edition tongue-and-groove barnwood-look planks with ecofriendly hard-wax oil finish in chalk by **DuChateau Floors**. **circle 648**
4. Cottage Wood slip-resistant porcelain stoneware by **Ceramica Fioranese**. **circle 649**
5. Original circle-sawn mixed softwoods in solid LEED point-eligible pre- or unfinished recycled wood by **Pioneer Millworks**. **circle 650**
6. Plyboo's Stiletto bamboo composite FSC-certified planks with brushed and oiled finish in taupe by **Robin Reigi**. **circle 651**
7. Plaza Eco-wood ceramic tile made with recycled porcelain tile and glass by **Azulejos Plaza**. **circle 652**
8. Solidarity exotic hardwood in Brazilian Pecan with smooth finish by **Indus Parquet**. **circle 653** ➤

cooking good!

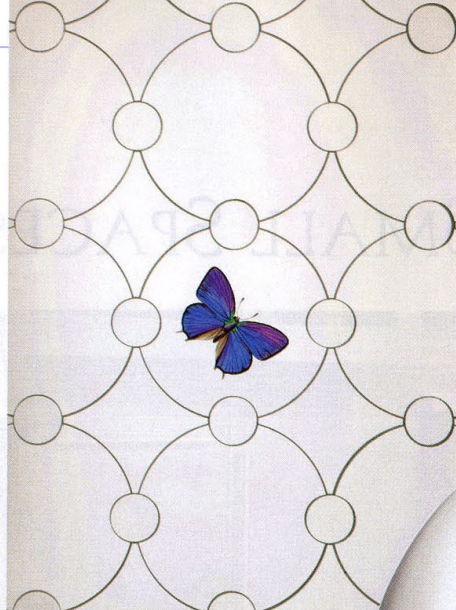

Minimalist ingredients mean greater mealtime glamour

1. Vault top-mount single-basin apron-front sink in stainless steel by Kohler Co. **circle 781**
2. Varena modular system in glass, lacquer, and wood by Poliform. **circle 782**
3. Floating Spaces cabinet panel system in crystal white by SieMatic. **circle 783**
4. Way cabinet system in melamine, aluminum, chrome, FSC-certified wood composite, and lacquer by Snaidero. **circle 784**
5. Crystalline compact sink with safety-glass top by Blanco. **circle 785**
6. Curved, glazed lava stone countertop by Pyrolave. **circle 786**
7. Henrybuilt Design Group's backsplash shelf and knife block in powdercoated steel and walnut by Viola Park. **circle 787** ➔

kitchenbath

Sicis

The undulating pattern of **Mirage 2** is reminiscent of a trellis or delicate gate, and its winged visitor seems frozen in time. The three-part tile system is made of glass with an alkyd-melamine backing. Butterfly inserts are optional. 877-839-8900; sicis.com. **circle 788**

Mastella

The soft, water-worn surface of river stones provided designer Christian Piccolo with inspiration for the compact **Sasso** basin. It's made from Cristalplant, a fusion of acrylic resins and minerals that give the product a nonporous, resistant, and very touchable finish. The approximately 6-inch-tall, 21 2/3-inch-wide, and 17 2/3-inch-deep basin also comes in black. Through Nella Vetrina, 646-415-9150; nellavetrina.com. **circle 789**

Inax

Smooth lines and flat surfaces converge (read: easy to clean) in the **Superior** one-piece toilet. It's geometry with a soft side—and the elongated seat proves extra comfortable. A single button operates the 28-inch-deep skirted unit. Slow-Down seat technology prevents slams, and the Jet Stream flush is, as the name suggests, powerful. 424-237-1031; inax-usa.com. **circle 790** ➤

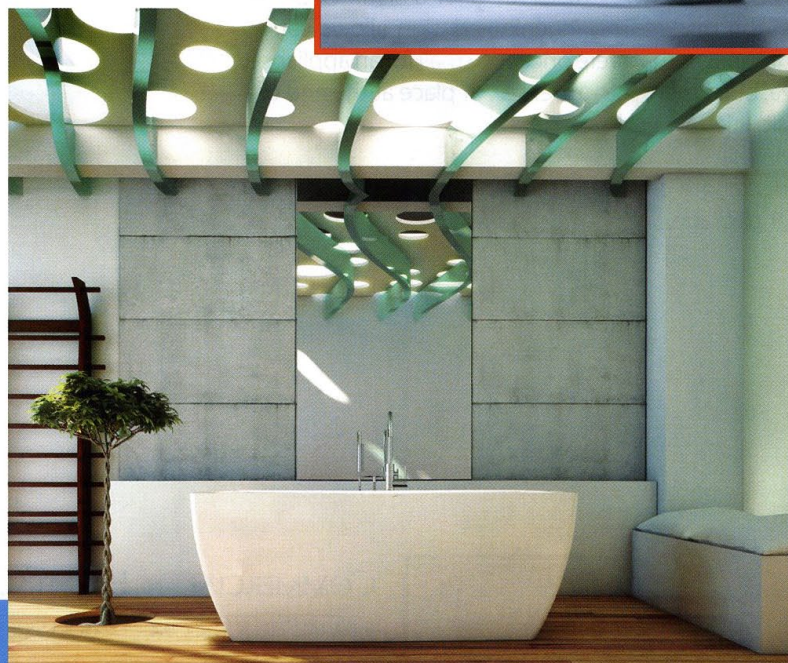

Porcelanosa

The large-format **Ona Beige** wall tiles have the weathered appeal of stone and the dappled texture of drifting sand. The grooved repeat pattern lends a modern look, while rectified edges allow for minimal grout joints—and thus a near-seamless installation. The 13-by-40-inch matte-finish tiles are available in beige, marron, and natural. 201-995-1310; porcelanosa-usa.com. **circle 792**

BainUltra

The ergonomic form of the **Essencia** soaker prepares you for the rejuvenating therapies it delivers. The inner shell features two seats that can also function as footrests, so you can choose from stretched-out, relaxed, and seated positions. The backrest delivers a massage, while armrests run the full length for added security and comfort. In white acrylic. 800-463-2187; bainultra.com. **circle 791**

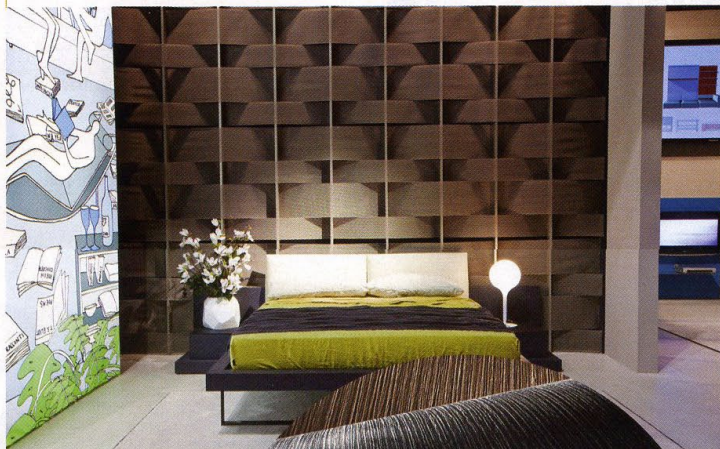

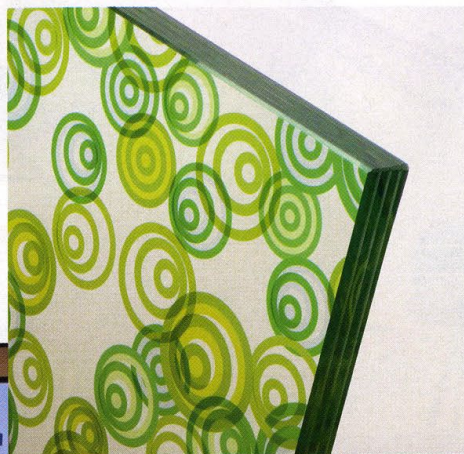

Pulp Studio

Inner layers of bold translucent color give **Boing** laminated glass visual punch—and power. Patterns include circles, dots, squares, lines, waves, and mesh; a mirror backing is also available. Suitable indoors or out. 310-815-4999; pulpstudio.com. **circle 831**

Ciel

Freestanding **Open Space** folding beds range from 81 to 120 inches wide. Just under 8 feet high, the Italian-made system is constructed of wood composite that can be finished in a choice of 24 lacquers, several wood veneers, a handful of patterned veneers, or melamine. The beds feature concealed hinging and are customizable with integral modular storage or shelving. Through Resource Furniture, 212-753-2039; resourcefurniture.com. **circle 830**

ThinkGlass

Stop them in their tracks with the **Glass** staircase. Risers supporting slip-resistant treads are available in nine colors of edge-polished laminated glass, whose strength and durability rivals that of stone. Straight, curved, or spiral stairs are all possible, and for extra sparkle, opt for discreetly embedded LEDs. 877-410-4527; thinkglass.com. **circle 832**

Treefrog Veneer

No endangered exotic trees were harmed in the making of these simulations, crafted from common wood species.

Treefrog Groove is manufactured via a process that irons out knots and imperfections while adding a distinctive grain texture. The laminate sheets measure 4 feet wide and 10 feet long. 800-830-5448; treefrogveneer.com. **circle 835**

Krown Lab

The exquisitely minimal **Oden** sliding-door hardware incorporates clever hidden fasteners as well as sealed bearings. There are versions for top- or face-mounting to doors—and sliding-glass panels, too. The system's sleek high-quality stainless-steel castings are carefully brushed or polished by the maker. 503-292-6998; krownlab.com. **circle 833**

Rocky Mountain Hardware

The art-grade bronze used in the **Mack** lever and 10-inch escutcheon is 90 percent recycled. Hardware from this manufacturer may contribute two LEED points for projects registered by the U.S. Green Building Council. Shown here in a silicon-bronze dark brushed finish, the unit is offered in nine other patinas. 888-788-2013; rockymountainhardware.com. **circle 834**
