What's Cool Everywhere Else

Leaves of Glass

From **Bear Creek Glass**, the Leaf chandelier, which draws inspiration from the outdoors, is comprised of hundreds of hand-blown and shaped frosted-glass pieces. The chandelier is illuminated using LED technology. **Circle No. 210**

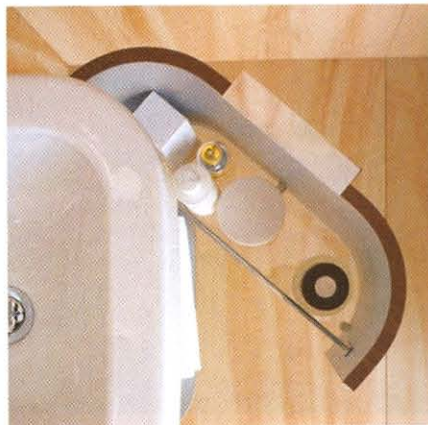

On All Cylinders

From **Hansa**, the Hansastela bathroom collection boasts a basic cylindrical body offset by angular features. The line comes in stainless-steel and brushed nickel finishes and includes a single basin and a wall-mounted lever mixer, as well as a tub spout, showerhead and a variety of accessories. **Circle No. 211**

Color Wall

In partnership with Wovin Wall, **3form** offers Wovin tiles, which are available in two shapes and a wide range of finishes, including the Pure Color system of Varia ecoresin panels, which makes it possible to create more than 50,000 hues. The Wovin tiles are clipped into a grid system in alternating directions to create a striking, three-dimensional woven pattern on walls and ceilings. **Circle No. 212**

Oh Happy Day

Characterized by its distinctive D-shaped profile, **Duravit's** Happy D. bathroom range, a series by Sieger Design, is ideal for small bathrooms and powder rooms. The handrinse basin, which includes a removable tray, comes in two widths—18¹/₈ in. and 19⁵/₈ in.—and features a 9⁷/₈- or 13³/₈-in. projection. Wood veneers are offered in American walnut, American cherry and Macassar. **Circle No. 213**

New Dimension

Incorporating texture into custom metal work, **Metaltec Innovations** offers dimensional figures raised off single-deco wall tiles or an entire wall mural. The company's hardware technology allows designers to create rapid metal prototypes of nearly any design, including a 3-D whale soapdish (shown). Available in chrome and antique bronze finishes, this soapdish measures 22 in. x 10 1/2 in. x 5 1/2 in. **Circle No. 223**

Signature Style

Inspired by turn-of-the-century details, the Harbor View kitchen concept by **Signature Custom Cabinetry** features well-organized amenities and custom-designed carvings. The Island (shown) provides ample work surface for food preparation and space for undercounter storage. It includes furniture-style details such as apple-core legs and bun feet. **Circle No. 224**

Outer Glow

An attractive centerpiece for an outdoor space, including an exterior kitchen, **Meyda Lighting's** 40-in.-sq. and 16 1/2-in.-tall Lincoln Pier Mount fixture is designed with a band of mini-inserts and a peaked, corrugated roof reminiscent of Arts-and-Crafts-style lanterns. Hand-finished in bronze steel, the lantern features clear, seeded-glass panels. **Circle No. 225**

NESSO

Out of Sight

Sleek in line and minimalist in concept, the Concealed Waste Slab Basin from **Deca** features a hidden drain located behind a small vent in the back of the sink. Made of fine fire clay, the basin measures 29¹³/₁₆ in. x 18¹/₈ in. x 5⁵/₁₆.

Circle No. 214

Frogger

Adorned with Swarovski crystals and green olivine eyes, the frog knob from the **Edgar Berebi Collection** re-creates the amphibian—a symbol of longevity, wealth and fertility—as an original work of art. Meticulously cut and polished, each Swarovski crystal is hand-applied. Measuring 1³/₄ in., the knob is available in burnished silver or museum gold. **Circle No. 215**

Stony Look

Adding rugged charm to interiors and outdoor spaces, **StoneCraft**'s manufactured stone veneer weighs much less than real stone, making installation easier. The Heritage profile offers classic style and rectangular shapes, while Ledge-stone (shown in Chardonnay's warm earth tones) features clean lines and shadowing created by various heights and depths. **Circle No. 216**

What is modern?

The Sequel

Following the release of last year's Elise freestanding tub, a hallmark of the Boutique Collection, **MTI Whirlpools** introduces the Elise 2, a petite version of the Elise that measures 63 in. x 32 in. x 20⁵/₈ in. The tub is available in white with a natural matte finish.

Circle No. 244

It Takes Two

Made of high-gloss, nonporous acrylic, **Lasco's** Acrylic 72-in. Shower Base allows for two-person use and can accommodate a full spa-like shower system with two showerheads. The design of the floor surface allows water to flow into a moat and around to the back of the pan, where a center drain is located. **Circle No. 245**

Air Head

From **Water, Inc.**, the Water Gap serves as an accessory water faucet and features an air gap device that provides needed ventilation for the dishwasher. Ideal for filling pots and pitchers, the Water Gap has a swivel spout with a 3 1/2-in. reach and can be installed into any sink's pre-existing dishwasher air gap hole. Available finishes are chrome and satin nickel. **Circle No. 246**

MEGANITE™

Acrylic Solid Surface

The greatest collection of best selling countertop colors in the industry!

Great Colors

Great Performance

Great Savings

Solid Surface designs that represent the industry's most sophisticated and popular colors. With MEGANITE, you can realize huge savings when compared to other brands without sacrificing quality or limiting your choice of colors.

- Easy-to-clean surface
- Seamed-in under-mount sinks
- Never needs sealing
- Water-tight seams, seamless appearance
- Resists bacteria-growth and staining
- 10 year warranty
- Durable, renewable, solid throughout — 1/2" thick
