What's Cool Everywhere Else

Bruck Lighting's Vibe pendant measures 6¹/₈ in. x 5¹/₂ in. and is handcrafted from fused glass. A Uni-plug design allows it to be mounted on a track lighting system or ceiling canopy through the use of an appropriate adaptor. It comes standard with a 59-in.-long cable and is available in LED and halogen versions in a variety of colors. **Circle No. 213**

Designed by William Harvey for **Du Verre**, Arroyo cabinet hardware is made from recycled aluminum and finished in satin nickel, oil-rubbed bronze or white. Knobs measure 3/4 in. x 3/4 in. and pulls are offered in lengths of 4³/₈ in., 8¹/₂ in. and 13¹/₄ in. The collection is compatible with LEED objectives. **Circle No. 214**

The new **Axor Bouroullec** collection comprises 40 bath products, including single-handle, two-hole and widespread faucets; wall-mounted sinks, as well as built-in basins with one or two offset shelves; shower fittings; tubs; coordinating accessories and furniture. The collection's open platform encourages personalization. A faucet spout and handles, for example, can be freely located on or around a sink to suit user needs. For the spatially limited, the Axor Bouroullec Shelf comes with an integrated single-handle faucet. **Circle No. 212**
