What's Cool Everywhere Else

WOLF Designer Cabinets from **WOLF Home Products** are now available exclusively to independent dealers in the company's territory in 28 states. The semi-custom line of American-made kitchen cabinets offers a new design palette for consumers and designers with more than 1,000 standard cabinet choices, 93 finish options, seven wood species and 40 door styles. The cabinets include solid wood dovetail drawers with full-extension, soft-close guides and are available in four construction options. **Circle No. 238** or visit kbbonline.com/freeinfo

The environmentally friendly BOTERO hardware collection by William Harvey and from **Du Verre Hardware** is made from recycled aluminum and features a small and large knob – which can also be used as a hook – and a 4-, 9- and 17-in. pull. The collection is offered in white, oil-rubbed bronze, polished nickel and satin nickel finishes. **Circle No. 239** or visit kbbonline.com/freeinfo

The Flyer collection of suspended bathroom wall units from **Boffi** can stand alone or be equipped with suspended drawer units in veneer or matt Silcover finishes. The drawers feature push openings, and the minimalist wall units are available in a variety of finishes, including wood, Corian, Cristalplant or stone. **Circle No. 240** or visit kbbonline.com/freeinfo

Dacor has launched its Renaissance 30-in. Induction Range, which features induction-cooking technology that uses electromagnetic energy to stimulate the iron molecules within the cookware, while its ceramic glass surface remains cool to the touch. The range offers a digital touch control panel and uses four SimmerSear induction zones to precisely distribute heat. The oven features the company's Four-Part Pure Convection System with a convection-heating element, baffle, fan and filter, which reduces cook time, provides precise heat distribution and eliminates flavor transfer. Pricing starts at \$5,299. **Circle No. 242** or visit kbbonline.com/freeinfo

The new line of hand-polished, stainless steel knife slots from **Luxe** can be directly inlaid into any type of counter surface, including marble, granite, concrete, quartz, soapstone, solid surface and tile. The knife slots are made with stainless steel from a renewable source and are available in 14-, 18- and 22-in. sizes. The collection is available in custom sizes for interior countertops and can also be used in outdoor kitchens. **Circle No. 241** or visit kbbonline.com/freeinfo

Paini-US, Edmo and LaToscana have introduced the Italian-style Oasi line of vanities and linen towers, which offers a customizable solution to all bathroom needs. These multi-sized, modular pieces are available in glossy red, black, white (pictured), slate, gray and sand finishes and offer a soft-close system for drawer guides and hinges. The hollow-grip handles are finished in chromed aluminum, and the vanity features integrated sinks. **Circle No. 248 or visit kbbonline.com/freeinfo**

The Ora collection of freestanding baths from **BainUltra** features an integrated headrest and back support through a gentle arch that naturally positions the shoulders slightly forward. The tub is deep enough for complete immersion, and a thick deck allows bathers to easily get in and out. The collection is offered in eight models in a variety of sizes with the company's Thermomasseur airjet thermomassage system or the ThermoSens system that combines chromatherapy, thermotherapy and aromatherapy. **Circle No. 249 or visit kbbonline.com/freeinfo**

Presto by **The Art of Power** is designed to help users plug their devices into power outlets without having to reach or bend down. The product is safe and easy to use and stands within a few inches of the wall in the baseboard where the power source is located. Presto stands either 30 and 36 inches tall and offers an adjustable height that is manually controlled through a telescoping mechanism built into the vertical supporting pole. **Circle No. 250 or visit kbbonline.com/freeinfo**

The Designer Series 149 Bottle Dual-Zone Wine Cooler from **Vinotemp** features gliding metal shelves with black wood trim, charcoal filtration for humidity and odor control and the ability to store wine in two temperature zones. It retails for \$2,799 and includes a dual-pane glass door with a stainless steel trim, blue LED interior lighting, a front vent for under-counter or freestanding installation and the option of a right- or left-hinged door. **Circle No. 251 or visit kbbonline.com/freeinfo**

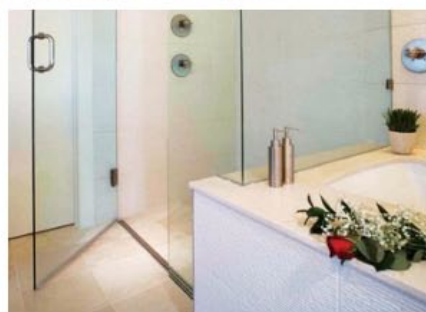

Noritz America has launched a tankless water heater-sizing calculator for both homeowners and contractors called Find the Right Model for Me. It is designed to identify the correct Noritz tankless model for a given application, as well as a Noritz-trained contractor to quote and install the unit. The calculator also identifies all available tax credits and utility rebates that are available to lower the installed cost and shorten the payback period. **Circle No. 252 or visit kbbonline.com/freeinfo**

This bathroom vignette from the **Aria Stone Gallery** features River Jade marble shower walls from Iran, a Bianco Extra quartzite shower pan from Brazil, a mirror-lit wall in Iceberg Blue calcite from Brazil and a block stand and seat in Bianco Scintillante marble from Brazil. **Circle No. 267 or visit kbbonline.com/freeinfo**

The **Libero** automatic door-opening system from **Hailo** features an ejector system that is integrated into the base of the cabinet behind the door to be opened and is equipped with LED location lighting. Space-saving installation in the front section of the cabinets ensures hindrance-free drawer function without impacting the waste trap area, and a sensor in the plinth area is activated by means of lightly tapping with the foot and opens the door automatically. The ejector force can be adjusted and adapted to cabinet contents of varying weights, and closing is activated without electrical support by lightly tapping the door. **Circle No. 266 or visit kbbonline.com/freeinfo**

Quick Drain's shower pan system can be installed in a matter of hours and features a 100 percent trough designed to remove the water and debris from the trough after each use. The system offers a variety of spacers to raise the drain cover based on your tile, as well as material thicknesses for a height that is flush with the floor. The waterproof membrane is pre-attached to the drain body, which is critical in ensuring a watertight connection and preventing leaks. **Circle No. 268 or visit kbbonline.com/freeinfo**

Summif's new collection of built-in, integrated wine cellars is available in two sizes and is designed for installation in wall cutouts. Both collections offer stainless steel-trimmed, reversible doors made from double-pane, tempered glass to protect the bottles from UV light; a digital thermostat to manage white and red wines; recessed LED lighting; a Sabbath mode setting to disable features during observance; slide-out wooden shelves; and fan-forced cooling to ensure an even temperature from top to bottom. **Circle No. 269 or visit kbbonline.com/freeinfo**

Schluter's KERDI-DRAIN now features a tileable covering support with a stainless steel plate that allows the bonding of ceramic or stone tile to a waterproof membrane and creates a virtually invisible drainage line. The floor drain itself is specifically designed to allow connections to bonded waterproof membranes. The membrane adheres to the large, integrated bonding flange to form a waterproof connection at the top of the drain assembly. **Circle No. 270 or visit kbbonline.com/freeinfo**
