What's Cool Everywhere Else

Walk the Plank

Inspired by the texture and subtle shading of aged driftwood, **Mediterranea's** Sandal Wood collection of plank-style glazed porcelain tiles provides the sought-after look of natural hardwood flooring with the benefits of tile. Offered in four colors—ocean breeze, palm, coconut and driftwood—in a standard 5-in. x 24-in. format, the fully rectified tiles have been commercially graded and exceed ADA requirements for slip resistance. **Circle No. 210**

Finishing Touch

Modern, durable and sustainable, **Atlas Homewares'** Stainless Steel finish makes it easy to coordinate decorative hardware with stainless-steel appliances. Suitable for a variety of decors, it is offered in polished or brushed, is easy to clean and is available on many of the company's collections. **Circle No. 212**

Fancy Footwork

A modern alternative to a roll-top or slipper tub, **Barclay's** Athens has a sleek trapezoidal shape and is set upon ebony-colored wooden laminate block feet that are protected with a urethane coating. Measuring 67 in. long, the tub comes in white (but can be painted black or bisque), has an interior finished in white enamel with non-skid strips and is available with or without 7-in. deck holes. **Circle No. 213**

Hands Off

Designed by Stefano Giovannoni for Oras, in conjunction with **Alessi**, the ILBAGNOALESSI One touchless washbasin faucet has a smooth, rounded shape reminiscent of rocks that have been polished by the tide. Equipped with an autofocus sensor and a small side lever for adjusting water temperature, it allows for water and energy savings, ensures maximum hygiene, contains an easily replaceable battery under its spout and comes with an optional handheld attachment. **Circle No. 211**
