THE OFFICIAL SPONSOR OF

Rim Shot

The latest addition to **Kaldewei's** Klassikduo family of products, the Oval Wide freestanding tub provides design flexibility with its one-piece paneling and a rim that is wide enough to accommodate rim-mounted fittings, a wine glass or candles. Classic yet modern in form, the tub measures 70 in. long and 31 1/2 in. wide and, with two identical backrests and a center drain, is comfortable for two. **Circle No. 206**

Stone Age

Carved from a single block of Carrara marble, **Stone Forest's** Oval Soaking Tub measures 42 in. x 48 in. x 40 in. and can be custom carved to specific depths based on user preference. Sleek and minimal, yet comfortable with a built-in integral seat, the tub, which also comes in black granite, is polished to create a smooth high-gloss surface. **Circle No. 207**

In a Nutshell

Wetstyle looked to nature for the Be Collection, whose freestanding tub mimics an exotic shell with its curved silhouette and subtle, peaked seam. Made from Wetmar, the company's durable and slip-resistant proprietary natural stone composite material, it measures 66 in. x 34 in. x 22 in., comes in glossy or matte white, is handmade to order and comes with a handy silver shelf. **Circle No. 208**

Dare to Bare

Novellini's transparent Cristal Tub leaves nothing to the imagination. Part of the company's Premium Elysium Collection, the edgy tub features a sleek geometric design with clean lines, is made from clear safety glass and measures approximately 78 3/4 in. x 30 3/4 in. x 26 in. An integrated chrome-finished floor-mounted faucet comes with the tub, whose base and side rails are offered in black or white with a glossy sheen. **Circle No. 209**
