Hardware Shows Urban Flair

Ashley Norton's Manzoni cabinet hardware collection features two distinct lines – Urban and Classical. The Manzoni Urban line, shown, reflects a more modern vibe with its contemporary lines. It is available in finishes of Polished Chrome, Satin Nickel, Flat Bronze or Satin Stainless. Shown is the bowed MC2796 and the wave-like MC2852.

Runner Gets Update

The new Tandem plus Blumotion runner from **Blum Inc.** offers four dimensional adjustments, increased load capacity, better side stability and many additional new features and improvements, according to the company. Blum is adding tool-free side-to-side adjustment in the locking device and at the rear of the runner for ideal gaps in inset applications. New mounting holes on the cabinet profiles allow the runner to be mounted to a fixed shelf or flush bottomed cabinet. The piece offers smooth running action and soft-close.

Cutlery Drawer Doubles Storage Space

Hardware Resources introduces its double cutlery drawer, a preassembled push-to-open double drawer that keeps cutlery organized. The drawer features 1/2" prefinished solid-maple dovetail drawer sides as well as a 1/4" prefinished birch ply bottoms. The drawer requires a minimum 5"-tall drawer opening to utilize USE undermounts.

Linear Track System Adds Options

The 115RC from **Accuride International** is a linear motion track system designed to accommodate a wide variety of applications. Comprised of aluminum tracks and recirculating ball carriages, the track may be side, flat or vertically mounted. Available in two lengths – 47" and 94" – the track can be cut to the length required. The system carries a maximum of a 265-pound load.

LEDs Illuminate Kitchen Cabinets

Total Light from **PMI** consists of made-to-order wood framed units with acrylic inserts and press-in LED light bars designed to replace conventional top, bottom or shelf components. Dual light strips fully illuminate upward and downward with a 3500K color value at 3 watts per foot output. They are available for either face-frame or frameless cabinetry and are compatible with standard manufacturing procedures.
