## A Tub for Tail Waggers

The new Gentle Pet™ by MTI Whirlpools makes canine cleansing easy

For most dog owners, bathing a pooch is a less-than-pleasant experience. Your dog is jumpy, it's hard to get all the shampoo off, and in the end, there's a giant mess to clean up.

That's why MTI Whirlpools developed the Gentle Pet™, which makes bath time blissful for dogs—and their parents. From its large bathing well (rounded in front so it's comfortable for parents to lean over), to its spacious shelves for shampoos and supplies, it's obvious that dog lovers designed this tub. Both a fill spout and a hand-held shower make the bathing process easy, and the tub's non-porous, stain-resistant surface is easy to polish. What's more, thanks to its Lucite® cast acrylic construction, the tub actually mutes the sound of water hitting its surface, helping to alleviate your dog's anxiety.

If you want even more features, opt for a tub that's equipped with five full-size point-massage whirlpool jets, which are especially beneficial for mature dogs with arthritis. And don't forget to add the ultra-convenient Fill-Flush® whirlpool cleaning system, which ensures you'll never have to mop up dog hair again.

The Gentle Pet measures 48" L x 30" W x 25" D and is priced starting at \$1199 as a soaker, or \$1699 plumbed with handspray, diverter, moveable tie down to \$2599 with whirlpool system and Fill-Flush® cleaning system.

Both a fill spout and a hand-held shower make the bathing process easy, and the tub's non-porous, stain-resistant surface is easy to polish.
