### axiom algonquin speakers

These waterproof and UV-resistant 175-watt speakers with durable plastic casings are ideal for moist locales such as the bath, deck, or patio. Able to be mounted horizontally or vertically on a wall or ceiling, they come in four colors—Spiced Rum, shown, Arctic White, Almond Bisque, and Cape Cod Grey. They also can be custom-painted to match your decor. \$330 per pair. 866-244-8796, axiomaudio.com.

### mti whirlpools stereo H2O

Pump up bath time with this high-tech option that allows you to have two speakers factory-installed into an MTI Whirlpools tub. Embedded into the casing so they're invisible, these acoustic transducers connect to an amplifier outside the bath that in turn hooks up to an audio system, CD player, or iPod. The speakers generate full-spectrum sound and send vibrating bass frequencies through the water, letting you hear and feel your tunes. \$1,000 (speakers only); \$3,483 (Antigua acrylic tub, shown). 800-783-8827, mtiwhirlpools.com.

## Free information kit & 30-capsule trial of Vyvanse.

In an open label study,  
**95%** of children showed  
overall improvement  
after taking Vyvanse  
for 12 months.
