1. Structura Eco-Panels from **Arch Systems** are constructed from thermoplastic panels using materials such as thin metallic sheets, synthetic leather, woven technology, and lacquers. Each panel is easy to install, water resistant, low maintenance, and Class A fire rated. [archsystems.com](http://archsystems.com)

2. **Fabric Innovations** has introduced three new books of menswear-inspired fabrics that range from rich chevrons to basic linens, bringing sophistication to drapery, top-of-the-bed, and pillows in any guestroom. [fabricinnovations.com](http://fabricinnovations.com)

3. Produced using the finest European hides, Hair Parlor from **Keleen Leathers** is a combination of prime hair-on cowhides that are acid-washed (metallic or non-metallic) and natural aniline dyed. [keeleenleathers.com](http://keeleenleathers.com)

4. The egg-shaped Cáscara tub from **MTI Baths** features an eco-friendly mixture of natural ground materials and high-performance resin that mimics the beauty of stone. [mtibaths.com](http://mtibaths.com)

5. Available in more than 60 colors, the Urban Expedition collection of coated fabrics from **P/Kaufmann Contract** includes phthalate-free polyurethanes and vinyls in metallic, linen, leather, and textured surfaces. [pkcontract.com](http://pkcontract.com)

6. Merano by **Grand Rapids Chair Company** is a modern collection of wood chairs and barstools featuring a bent plywood back and seat design, eliminating the need for screws and metal pieces. [grandrapidschair.com](http://grandrapidschair.com)
