KINGSBOTTLE

A beer and wine cooler in one, this unit holds up to 98 wine bottles and 300 cans. An Embraco compressor provides vibration-free cooling, and an Italian Carel temperature controller offers automatic defrosting control mode and energy-saving management. Other features include untreated beechwood shelves and steel ball bearings. KINGSBOTTLE.COM / **CIRCLE 864**

ISENBERG

Inspired by the industrial-chic trend, the Klassiker collection has more traditional proportions but still offers a linear look. It's made from stainless steel and uses ceramic disc valves. Options include a ribbed neck design, a spring spout, and an industrial-grade rubber hose cover. It comes in 20 colors.

MIELE

The manufacturer's first French-door refrigerator, PerfectCool is a fully integrated product with soft-close doors and double freezer drawers. It permits custom panels and will fit narrow kitchen layouts. Features include a plumbed ice maker, gallon door bin, and LED lights.

BIG CHILL

The Pro range is made from 304 stainless steel and features a 30,000-BTU oven, a 15,000-BTU infrared broiler, and eight burners ranging from simmer to 18,000 BTUs. Available in natural gas or propane, it includes three racks and a convection fan. Nine standard colors and 200 custom hues are available.

ILVE

The Majestic is the first 40-inch induction range in the U.S. market, the manufacturer says. It has a multi-function oven, full-size warming drawer, and rotisserie accessory. Each burner offers pot-sensing technology, power boost, and simmer. It comes in more than 200 colors.

FANTINI

Designed by Italian architect Franco Sargiani, Mare faucets look like a prism on an oval base, the company says, creating long, curved lines. Products are available in shower, bathtub, basin, and kitchen units, and in chrome, matte white, and matte black. [FANTINIUSA.COM](http://fantiniusa.com) / CIRCLE 867

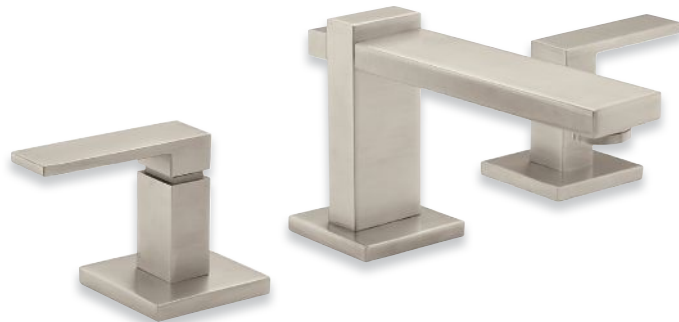

RUVATI

The Ibiza faucet features an interchangeable colored sleeve that slips on and off so homeowners may change hues based on their mood. Made from stainless steel, the unit measures 20 inches tall with a spout reach of 9 inches. Various colors are available. [RUVATI.COM](http://ruvati.com) / CIRCLE 869

VICTORIA + ALBERT

The company's Kit 40 Intelli Waste system uses magnetic technology to provide flood protection for its freestanding tubs that do not have a pre-drilled overflow. It works like a standard "click clack" drain, except the concealed system uses water pressure to sense rising water levels. When the depth of the water reaches 15 inches, the plug opens. CALIFORNIA FAUCETS

The Morro Bay widespread faucet is equally at home in a Zen retreat or an urban loft, the brand says. It features geometric lines and a distinctive spout built from two intersecting bars of solid brass. It uses ceramic disc valves and comes in more than 31 finishes.
