# bathing beauties

A white clawfoot bathtub is the central focus, set against a vibrant green wall. A chrome faucet with a curved spout is mounted on the tub. Above the tub, a white-framed picture hangs on the wall, containing a green circular graphic. To the right of the tub, a decorative vase holds a bouquet of white flowers. The tub sits on a white surface, and the overall scene is brightly lit.

**B**athtubs express the spa-like atmosphere like little else, especially when they offer beautiful design, gleaming surface, and offer a way to float away from day-to-day cares. From gleaming metal and bright pinks and blues, tubs today are every shape—from round soaking tubs to re-create slipper tubs. ♦
