## HOSPITALITY FAUCETS AND FIXTURES

### Contemporary-styled bathroom fixtures

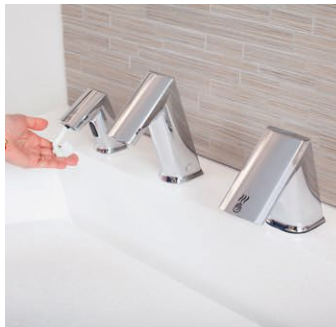

American Standard introduced a pint urinal and wall-hung sink to its commercial Decorum fixture collection. The pint urinal features an updated hydraulic system that functions on 0.125 gal. of water per flush. It is ADA-compliant and designed with a deep bowl that helps reduce splashing. It is available in either top or back spud configurations. The wall-hung sink, with its 20" width and 18" depth, features a recessed self-draining deck for minimal backsplash. It is TAS-compliant and available in multiple configurations.

### Three-in-one handwashing system

Sloan's AER-DEC Integrated Sink features a soap dispenser, faucet and high-speed hand dryer on a patent-pending AirBasin specifically engineered to redirect air and water to eliminate backsplash and updraft. The AirBasin is made to order for each project so that it fits the space. The basin itself is fully customizable in terms of size, configuration, mounting and color. The BASYS faucet uses active infrared technology for automatic shutoff. Equipped with a pioneering sound suppression system and HEPA air filter, the hand dryer uses less energy than conventional dryers.

### Modular bath, shower space

MAAX's ModulR solution enables a wide variety of configurations for bathtubs, shower bases and doors that best suit the dimensions and designs of any bathroom. A simple to use web-configuration tool is available to create the perfect combination in just a few steps, as well as to customize the product's color, dimensions, frame finish, drain position, options and accessories. Customers can maximize every square inch of their bathroom and create a unique, attractive signature look.

### Air-infused showers

California Faucets' StyleFlow Air models feature a patented device that infuses the shower water with air to create fuller droplets without increasing water consumption. It is available in multiple flow rates from 2.5 gal. per min. to a water-conserving 1.5 gpm. Each model is available in polished chrome as well as 14 artisan finishes. The handshowers each sport 5" diameters and are available in either multifunction or single-function versions. The multifunction versions feature three spray modes: air spray, rain air spray and massage air spray.

### Hands-free technology

Hansgrohe's Select technology is available with the Talis Select S and Select E faucets. Its integrated Select technology is purely mechanical; the flow of water is turned on and off with a touch of the button. Clean and sanitary, this allows for hands-free operation as the button can be engaged with the forearm, elbow, etc. The added convenience requires no electricity or other devices in the base cabinet. It is composed of solid brass with a chrome finish and runs at a low flow rate of 1.2 gal. per min.

### Intelligent faucet

Cinaton's single-hole 4001 iSense faucet utilizes two advanced sensors and a handle on the side allows the user to adjust the water temperature. The sensor on the front of faucet is for intermittent flow and has a LED indicator. The sensor on the right side is for continuous water flow. It also features a center easy sensor pause or disable function for cleaning the sink area. The faucet is easy to install and includes a backup battery. It measures 5.91" L x 6.71" H x 2.36" W and is available in either a polished chrome or satin nickel finish.

# Products & Literature

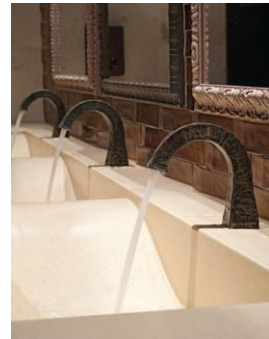

## Reverse osmosis faucets

Tomlinson's line of reverse osmosis faucets have five styles to satisfy an array of design aesthetics. Each of the faucets feature: lead-free brass body; smooth operating lever-style handle; patented removable modular air gap; protective spout tip to prevent after-drip; high-reach neck of approx. 12" that swivels 360°; and certified to NSF/ANSI Std. 61 – 9 and 372. **Tomlinson Industries. [www.tomlinsonind.com](http://www.tomlinsonind.com)**

## European design

Victoria + Albert's Florin collection features a subtle fan detail on the tap handles and includes five distinctive pieces for the basin, bath and shower. All of the faucets are available in a choice of three finishes: polished chrome, polished nickel and brushed nickel. All are EPA WaterSense-certified, allowing consumers to meet codes. Two of the faucets — Florin 9 and Florin 11 — are ADA-certified and offer an easy-to-operate design. The entire line of faucets is IAPMO Green, CAL Green, LEED v4 and CED approved. **Victoria + Albert. [www.vandabaths.com](http://www.vandabaths.com)**

## Touchless hand washing

Sonoma Forge's Sans Hands faucets blend design with touchless hand washing. The faucets are available in the CiXX (pictured) and Wherever collections. With no visible sensors, CiXX's (pronounced "six") designer faucets, shower systems and coordinated accessories all show the blacksmith's original hammer marks in a rustic and distressed surface texture. Based on the WaterBridge collection, the Wherever collection is simply a widespread version. **Sonoma Forge. [www.sonomaforge.com](http://www.sonomaforge.com)**

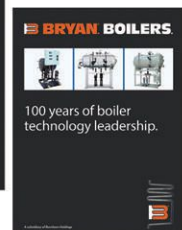

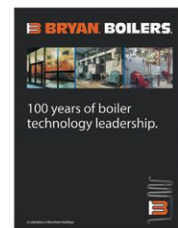

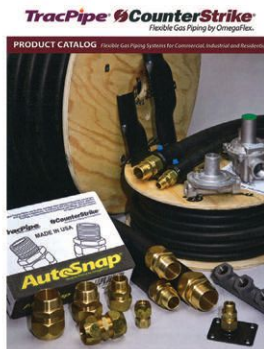

## Pipe fittings press tool

DeWalt's new Press Tool is capable of pressing pipe fittings from 1/2" to 4" in copper and stainless-steel pipe. It is capable of completing a full range of presses and is compatible with a wide range of crimping heads and attachments for different materials and applications. It also features the Crimp Connect System, a bright LED work light that helps to illuminate the workspace and an LED panel which powers the tool on or off, and indicates if recalibration or service of the tool is needed. **DeWalt. [www.dewalt.com](http://www.dewalt.com)**

## CSST gas-piping brochure

OmegaFlex's full-line brochure features CounterStrike CSST and PS-II Underground gas piping for LP and natural gas applications. The catalog is available online at [tracpipe.com](http://tracpipe.com) (under the literature tab) or in print by either contacting OmegaFlex customer service at 800/671-8622 or by email at [sales@tracpipe.com](mailto:sales@tracpipe.com). Request literature number FGP-745. **OmegaFlex. [www.tracpipe.com](http://www.tracpipe.com)**

## Boilers and accessories literature

Two new brochures are available from Bryan Steam, detailing its complete line of boilers and boiler accessories. The new boiler literature features a broad range of boilers, including forced-draft gas, electric, condensing, low NOx and knockdown boilers from 6 to 600 hp for industrial, commercial and institutional applications. The company's line of boiler accessories also is featured in a second brochure including boiler feed systems, blowdown separator, indirect heaters, deaerators and horizontal transfer systems. **Bryan Steam.
