High-efficiency transitional toilet

St. Thomas Creations' Canto one-piece transitional toilet offers a chair-height bowl with elongated dimensions, a soft-close lid and quiet flush mechanism. With EcoQUATTRO flushing technology, it is EPA WaterSense-compliant. It uses 1.28 gal. per flush and is capable of clearing more than 1,000 grams of solid waste in independent MaP testing. With an oversize 2 1/8" trapway, clogging is virtually eliminated, while precision rim jets and a MicroGlaze nonstaining, anti-microbial finish make for an easy-to-maintain bowl. It is available in white and balsa with several alternate trim finishes. **St. Thomas Creations. www.stthomascreations.com**

Food waste disposal

For kitchens generating 150 to 14,000 lb. of food waste daily, EnviroPure organic food waste disposal systems from T&S Brass are self-contained, continual-feed, fully customizable machines that convert organic food waste — including pits, bones, shells, coffee grounds and more — into water. EnviroPure systems use no enzymes and generate no harmful bacteria. The 100% safe effluent can stream directly into municipal wastewater systems or be used for irrigation. No odors, no sludge build-up, no system clean-outs required. Leasing options available. **T&S Brass. www.EnviroPureSystems.com**

Products & Literature

Grooved-end butterfly valve

Bonomi's L700E Series of grooved-end butterfly valves are built with an ISO mounting pad and stem for simple automation with electric or pneumatic actuators. Available in sizes 2" to 12", the L700E is designed to meet ANSI/AWWA C606 and MSS SP-67. Maximum working pressure is 200 psi. Standard features include an epoxy-coated ductile-iron body, EDPM-coated ductile-iron disc and a 410 stainless-steel ISO square stem. An ISO 5211 mounting pad is integral, making it easy to add any ISO 5211 standard actuator or manual operator. A BUNA-N-coated disc is optional. **Bonomi North America. www.bonominorthamerica.com**

Drain-cleaning tube distributor

The inner drum of General's Speedrooter 92 is molded to surround and contain the Flexitube distributor tube to prevent cable tangling, while still allowing the operator to see how much cable is left in the drum. The large steel drum holds up to 100' of 3/4" or 5/8" Flexicore cable for clearing 3" to 10" drain lines; the small drum carries up to 100' of 9/16" cable for clearing 2" to 4" lines. It features a grease fitting and a heavy-duty 1/2 hp motor with thermal overload protection. **General Pipe Cleaners. www.drainbrain.com**
