Mold-free heat pumps

UV Resources' Remote Lamp Mount Small Systems Kit uses ultraviolet energy to destroy mold, bacteria and other microbes on hard-to-service fan coil units, package and heat pump systems. By inactivating these microbes, the system helps prevent coil inefficiencies, drain pan overflow and foul odors. The remotely mounted, high-efficiency fixture simplifies installation of the kit, which also includes the CU2 for local or remote lamp/ballast monitoring. **UV Resources. www.uvresources.com**

Small angle grinders

DeWalt's 4 1/2" Small Angle Grinders with brake feature a lanyard-ready connection, allowing users to tether the grinder to rigid structures at job-sites, and a brake that stops the wheel 50% faster on average. Key improvements include a Dust Ejection System that has been taken to a new level of design and functionality, an E-CLUTCH that activates in less than a tenth of a second when a wheel pinch/stall event is detected; and a new motor design. **DeWalt Tools. www.dewalt.com**

Geometrical faucet

Barber Wilsons' Manhattan features a clean silhouette and geometrical shape. The three-hole faucet is crafted from solid brass construction and comes standard with a pop-up drain. It is available in polished brass, chrome, nickel, weathered bronze, satin nickel and satin chrome. The 5 1/2" widespread faucet is adjustable with flex hoses offered from 6" to 10".

Add-a-gauge tools

Webstone's Add-A-Gauge tool allows installers to use an existing hose connection to add a gauge port to any system. Models accommodate bottom or center-back mounted temperature and/or pressure gauges (sold separately), feature a 1/8" capped bleeder, are constructed from lead-free CleanBrass and guaranteed for life. **Webstone Co. www.webstonevalves.com**

Quarter-turn actuator

Bonomi's Valbia VB008 Mini quarter-turn direct-mount electric actuator measures 4 3/4" long by 2 3/4" wide. It is used with 1/4" to 1 1/4" full-port direct-mount ball valves. The mini actuators feature an F-03/05 pattern ISO-5211 direct-mount flange and square shaft slot. The standard 110 VAC motor with Class II insulation meets CE standards and delivers 71 in/lb. of torque in horizontal or vertical installations. The waterproof IP 65 housing is constructed of flame-resistant plastic with O-ring seals at critical points. **Bonomi North America. www.bonominorthamerica.com**

Hands-free flush plate

Geberit's hands-free electronic version of its Sigma10 flush plate is available with battery power or an AC transformer and activates via touch-free infrared sensing. A manual override button with stop-and-go flush is built in. An easy-to-clean, brushed stainless-steel finish complements a wide range of restroom designs in private and public locations. The flush plates comply with the Americans with Disabilities Act when installed per the requirements of the latest ADA Standards for Accessible Design. **Geberit. www.geberitnorthamerica.com**
