Sleek bath series

Meda, in the heart of Brianza, Italy, is the region where high-end Italian contemporary furnishings have been made since the 18th century. It is here the artisans and ateliers of high quality, luxury contemporary furnishings continue to inspire and be inspired. The ROHL Italian Bath Meda series is named in honor of this history. The sleek lines of this collection embody the spirit of Cassina and Minotti chairs, tables and accessories. Unfettered and modern from start to finish, the company states.

Semi-recessed design sink

American Standard's Boxe semi-countertop sink features a space-saving design that is partially recessed to easily fit on a countertop as narrow as 13". The white lavatory is available in a choice of single or 8" widespread hole options to offer installation flexibility and accommodate a range of faucet selections. The lavatories are self-rimming with a rear overflow and are constructed of fine fire clay to offer lasting beauty. Offering clean design lines, this lavatory makes a visual statement while comfortably fitting into a smaller space.

Boiler temp adjustment capabilities

tekmar's zone valve control 306V provides heat to hydronic heating systems by connecting as many as four thermostats and operating various zone valves. Designed to operate zone valves and a system pump, the control includes optional exercising and post-purge operation of the domestic hot water tank, as well as RoomResponse technology for adjusting boiler target temperatures based upon thermostat on-time.

Industrial-style collection

MCN European Enterprises new Nature Cross Collection brings industrial looks to the bathroom. The collection is available with gleaming metal finishes and fixtures that resemble pipes taken from old factories and warehouses, the company notes. Choose from a wide-spread faucet, a Roman tub set with a handheld shower, a tub spout and thermostatic- and pressure-balance tub and shower sets.
