grill and mounting plates to meld together a variety of options of stackable refrigeration. **For more information, circle No. 846**

### 20) ThinkGlass Staircase

ThinkGlass has perfected its cutting-edge technology to eliminate lamination lines, allowing the polished edge of glass treads to showcase the beauty of pure glass—making glass staircases a real and popular option. Glass treads of 1.5-inch thickness are up to three times stronger than granite or stone, and can bear a load of up to 1,800 pounds at the center of a 36-inch-wide tread.

### 21) Surfaces White Collection

This new glass wall tile series offers the look of an arctic glacier and the cleanliness of a fresh snowy landscape. The collection is available in four varieties: 12 x 12-inch sheets containing 36 (2 x 2-inch) chips, 12 x 13-inch sheets of 1 x 2-inch chips, 13 x 12-inch sheets of varied-sized chips, 5 x 10-inch liners tiles, and 4 x 10-inch tiles. The

line is offered in multiple colors, including White Brick and Polar Diamond.

### 22) Ann Sacks Marone Toscano

The Marone Toscano travertine marble is the latest addition to the Ann Sacks line of Tuscan stone. It features a rich chocolate brown background and delicate taupe and cream veining. Quarried in a region of Italy that is especially prized for its travertine, Marone Toscano is a strikingly handsome option that is suitable for all indoor flooring applications, as well as many weather-appropriate outdoor settings.

### 23) Danze Florin Five-Function Showerhead

The Florin 4.5-inch five-function showerhead meets strict requirements set by the EPA's WaterSense program for water efficiency, using 20-percent less water than a standard showerhead. The five functions include wide, centeriet, aeration, massage, and wide+centeriet.

The easy-glide selector ring features a lever for easy switching between functions. Danze Intenze technology, specifically D-Force and Air Injection, improve performance even at low pressure.

### 24) Prestige IAQ and VisionPRO 8000 Thermostats

Two smart thermostats from Honeywell can be controlled remotely from a mobile device with the Total Connect Comfort app, available through iTunes and Google Play. Prestige IAQ monitors and tests a heating and cooling system every time it turns on. If it's not at peak efficiency, the thermostat alerts the homeowner. VisionPRO 8000 can be customized to suit any individual or family's needs via the Portable Comfort Control accessory, which has a built-in temperature sensor.
